

CONTENTS

Chapter 1

Fundamental Background for Radiologic Anatomy	1
Historical Background.....	1
Nature of X-rays.....	1
The Production of X-rays.....	3
The Manner in Which a Basic X-ray Machine Operates.....	7
Fundamental Properties of X-rays.....	9
Accessories Necessary for the Recording of the X-ray Image.....	10
Special Accessories in the Production of Special Types of X-ray Images..	18
The Fundamental Geometry of X-ray Image Formation and Interpretation.....	20
The Necessity for Different Views or Projections of an Anatomic Part	23
Steps in the Production of a Radiograph.....	23

Chapter 2

Protection from Roentgen Irradiation	25
The General Effects of Irradiation.....	26
Protection of the Patient in X-ray Diagnosis.....	29
Protection of the Physician in X-ray Diagnosis.....	33

Chapter 3

The Development of Bone	36
Intramembranous Ossification.....	36
Endochondral Ossification.....	36
The Blood Supply of a Long Bone.....	45
Wolff's Law.....	47
“Bone Age” versus “Chronologic Age”.....	47
Cartilage.....	59
Joints.....	59
General Principles of Importance in the Radiographic Anatomy of the Skeletal System.....	61

Chapter 4

The Upper Extremity	62
The Shoulder.....	62
The Arm.....	89

The Elbow.....	96
The Forearm.....	109
The Wrist.....	113
The Hand.....	124
 <i>Chapter 5</i>	
The Pelvis and Lower Extremity.....	132
The Pelvis.....	132
The Thigh.....	145
The Hip Joint.....	153
The Knee Joint.....	168
The Patella.....	182
The Leg.....	188
The Tarsus.....	193
The Metatarsals.....	208
Changes with Growth and Development.....	216
 <i>Chapter 6</i>	
The Skull.....	220
General Survey of the Skull.....	220
 <i>Chapter 7</i>	
Detailed Consideration of Certain Areas of the Skull.....	282
The Nose.....	282
The Paranasal Sinuses.....	288
The Orbit.....	301
The Temporal Bone.....	306
The Sella Turcica.....	309
 <i>Chapter 8</i>	
The Radiographic Study of the Brain.....	319
Pneumoencephalography and Ventriculography.....	319
Angiography of the Brain.....	369
The Utilization of Radiographs for Localization of Injection Procedures in Relation to the Brain (Chemosurgical Techniques).....	376
 <i>Chapter 9</i>	
The Vertebral Column and Subarachnoid Space.....	378
The Vertebral Column.....	378
Structure of the Intervertebral Disk.....	430
The Vertebral Canal and Spinal Subarachnoid Space.....	431

Chapter 10

The Respiratory System	440
The Upper Air Passages.....	440
The Larynx.....	443
The Trachea and Bronchi.....	450
The Lung Parenchyma; The Air Spaces.....	458
Vascular Supply, Venous Drainage and Lymphatics of the Respiratory Tract.....	462
The Lung Hili.....	466
The Thoracic Cage, Pleura and Diaphragm.....	468
Routine Positions in the Radiography of the Chest.....	487
Bronchography.....	502

Chapter 11

The Mediastinum	509
The Mediastinum (Excluding Heart and Aorta).....	509
The Cardiovascular System.....	511

Chapter 12

Special Studies of the Heart and Major Blood Vessels	541
Special Studies of the Heart in Vivo.....	541
Catheterization of the Heart.....	553
Utilization of Contrast Material for Demonstration of the Coronary Circulation at Autopsy.....	568
Phlebography of the Lower Extremity.....	570
Percutaneous Splenoportal Venography.....	574
The Vertebral and Azygous Venous Systems.....	576
Osseous Phlebography.....	577

Chapter 13

The Upper Alimentary Tract	579
Principles Involved in Study of the Alimentary Tract.....	579
The Mouth and Oropharynx.....	580
The Salivary Glands.....	584
The Esophagus.....	586
The Stomach.....	598
The Duodenum.....	622

Chapter 14

The Intestine Beyond the Duodenum; The Biliary Tract	628
The Small Intestine.....	628
The Large Intestine.....	635
The Biliary Tract.....	654

Chapter 15

The Abdomen and Peritoneal Space 671

- Boundaries, Subdivisions and Contents of the Abdominal Cavity. 671
- The Peritoneum, Mesenteries, Omenta and Ligaments. 672
- The Liver. 680
- The Spleen. 682
- The Pancreas. 682
- The Adrenal Glands (Suprarenals). 683

Chapter 16

The Urinary Tract..... 686

- Correlated Gross and Microscopic Anatomy of the Urinary Tracts. . . 686
- Radiographic Examination of the Urogenital Tract. 691
- The Normal Radiographic Appearance of the Urinary Tract. 707

Chapter 17

The Genital System..... 712

- The Male Genital System. 712
- The Female Reproductive System. 714

Index 743
