

Contents

1 The Normal Esophagus and Stomach	
Normal Esophagus	1.2
Normal Stomach	1.6
2 Esophageal Disease	
Gastro-esophageal Reflux	2.2
Esophagitis	2.2
Stricture	2.4
Esophageal Ulcer	2.5
Barrett's Syndrome	2.5
Diverticula	2.6
Esophageal Carcinoma	2.7
Rings and Webs	2.10
Achalasia of the Cardia	2.10
Diffuse Spasm	2.12
Systemic Sclerosis (Scleroderma)	2.12
Foreign Bodies	2.13
Infection	2.14
Esophageal Varices	2.15
3 Diseases of the Stomach	
Benign Gastric Ulcers	3.2
Giant Benign Gastric Ulcers	3.4
Juxtapyloric Ulcers	3.4
Greater Curve Ulcers	3.4
Exclusion of Malignancy	3.4
Complications of Gastric Ulcers	3.5
Hiatus Hernia	3.6
Gastritis	3.6
Carcinoma	3.10
Diverticula	3.16
Polyps	3.16
Gastric Surgery	3.17
Foreign Bodies and Bezoars	3.18
4 Normal Duodenum and Duodenal Disease	
Normal Anatomy	4.2
Duodenal Ulcer	4.4
Complications of Duodenal Ulcer	4.6
Hemorrhage	4.6
Perforation	4.6
Gastric Outlet Obstruction (Pyloric Stenosis)	4.7
Duodenitis	4.7
Duodenal Diverticula	4.8
Duodenal Polyps	4.9
5 Small Intestine I: Normal Small Intestine and Diseases of the Small Intestine	
Normal Anatomy	5.2
Intestinal Obstruction	5.4
Celiac Syndromes	5.6
Dermatitis Herpetiformis	5.11
Whipple's Disease	5.12
Tropical Sprue	5.14
Nodular Lymphoid Hyperplasia	5.15
Disaccharidase Deficiency	5.16
A-beta Lipoproteinemia	5.17
Intestinal Lymphangiectasia	5.17
6 Small Intestine II. Infestations, Infections and Neoplasms	
Infestations and Infections	6.2
Giardiasis	6.2
Ascariasis	6.2
Hookworm	6.4
Strongyloidiasis	6.6
Trichuriasis	6.6
<i>Taenia saginata</i> (Beef Tapeworm)	6.7
Yersinia	6.8
Tuberculous Enteritis	6.8
Typhoid (Enteric Fever)	6.11
Neoplasms	6.12
Lymphoma	6.12
Alpha Heavy Chain Disease	6.13
Primary Carcinoma of the Small Bowel	6.15
Secondary Carcinoma of the Small Bowel	6.16
Carcinoid Tumors of the Small Intestine	6.16
