7 Normal Pancreas and Pancreatic Disease			
Normal Anatomy	7.2		
Pancreatitis	7.5		
Pancreatic Cysts and Pseudocysts	7.11		
Carcinoma of the Pancreas	7.13		
Periampullary Carcinoma	7.16		
Cystic Fibrosis	7.18		
8 Colon I: Normal Colon and Diseases of the Colon			
The Normal Colon	8.2		
Colonic Diverticular Disease	8.4		
Diverticulosis	8.4		
Diverticulitis	8.6		
Ischemic Colitis	8.8		
9 Colon II: Diseases of the Colon			
Infectious Diarrhea	9.2		
Pseudomembranous Colitis	9.2		
Amoebic Colitis	9.4		
Pneumatosis Cystoides Intestinalis	9.7		
Actinomycosis	9.8		
Pseudomyxoma Peritonei	9.9		
Melanosis Coli	9.10		
Appendicitis	9.10		
Abdominal Tuberculosis	9.12		
10 Colon III: Crohn's Disease			
Introduction	10.2		
Radiology	10.6		
Pathology	10.9		
11 Colon IV: Ulcerative Colitis			
Complications		11.6	
Pathology		11.9	
12 Colorectal Cancer, Polyps and Vascular Malformations			
Colorectal Cancer		12.2	
Polyps		12.6	
Adenomatous Polyps		12.6	
Early Colorectal Cancer (The Malignant Polyp)		12.1	
The Non-Neoplastic Polyps		12.1	
Hamartomas		12.1	
Multiple Polyposis Syndrome		12.1	
Volvulus		12.1	
Vascular Malformations		12.1	
13 Disorders of the Anus and Anal Canal			
Anatomy of the Anal Canal		13.2	
Hemorrhoids		13.2	
Anal Ulceration		13.4	
Infections		13.5	
Pelvic Floor Disorders		13.7	
Sexually Transmitted Diseases Affecting the Anus and Rectum		13.9	
Schistosomiasis		13.1	
Neoplasms		13.1
