PREFACE 7

COMPONENTS OF RASHES 8

BACTERIAL AND FUNGAL INFECTIONS 13

Streptococcal infection 13

Surface infections 14

Invasion of deeper tissues 34

Sensitisation reactions to streptococci 40

Staphylococcal infection 42

Meningococcal infection 57

Whooping cough (pertussis) 71

Salmonella infection 76

Gastroenteritis 96

Diphtheria 104

Vincent's infection 116

Thrush 118

Leprosy 124

Tetanus 132

Anthrax 136

Leptospirosis 142

Gonorrhoea 148

Chlamydial infection 152

Syphilis 160

Chancroid 167

Donovanosis 168

VIRUS INFECTIONS 170

Herpesvirus group 170

Varicella (chickenpox) 171

Herpes zoster (shingles) 192

Herpes simplex infection 216

Cytomegalovirus infection 236

Infectious mononucleosis 242

Viral hepatitis 253

- Myxovirus infection 262
 - Influenza* 263
 - Mumps* 268
 - Measles* 276
- Rubella 294
 - Postnatal rubella* 296
 - Congenital rubella* 300
- Enterovirus infection 306
 - Exanthematous disease* 308
 - Herpangina* 312
 - Hand, foot and mouth disease* 314
- Roseola infantum 318
- Erythema infectiosum (slapped-cheek syndrome) 320
- Rabies 322
- Poxvirus infection 326
 - Orf (contagious pustular dermatitis)* 326
 - Milkers' nodes (paravaccinia)* 330
 - Molluscum contagiosum* 332
- Probable virus infections 335
 - Cat-scratch disease* 335
 - Pityriasis rosea* 338
- PROTOZOAL INFECTIONS 342
 - Amoebiasis 342
 - Malaria 348
 - Toxoplasmosis 357
- MISCELLANEOUS CONDITIONS 364
 - Mycoplasma infection 364
 - Stevens-Johnson syndrome 376
 - Scalded-skin syndrome (toxic epidermal necrolysis) 380
 - Kawasaki disease 384
- INFECTIONS IN PATIENTS WITH DISTURBED IMMUNITY 394
- INDEX 408
