

# Contents

	<b>Executive summary</b>	
<b>1</b>	<b>Introduction</b> .....	<b>1</b>
<b>2</b>	<b>Neonatal and perinatal mortality</b> .....	<b>2</b>
	2.1 Neonatal deaths .....	2
	2.2 Stillbirths .....	3
	2.3 Perinatal mortality .....	4
	2.4 Determinants or causes of death .....	4
	2.5 Historical trends .....	5
	2.6 Interventions .....	5
<b>3</b>	<b>Definitions and rates: statistics for international comparison</b> .....	<b>6</b>
<b>4</b>	<b>Sources of perinatal and neonatal mortality data</b> .....	<b>7</b>
	4.1 Vital and mortality statistics .....	7
	4.2 Survey data .....	7
	4.3 Hospital data .....	7
	4.4 Underreporting .....	8
<b>5</b>	<b>Methodology to estimate rates of neonatal and perinatal mortality</b> .....	<b>8</b>
	5.1 Establishing the estimation dataset of available data .....	9
	5.2 Estimating missing neonatal, early neonatal and stillbirth mortality rates .....	10
	5.3 Adjusting mortality rates to WHO under-five (5q0) mortality estimates for the year 2000 .....	11
<b>6</b>	<b>Calculating rates and numbers by country and region, and globally</b> .....	<b>12</b>
	6.1 Number of neonatal and early neonatal deaths by country .....	12
	6.2 Number of stillbirths and perinatal deaths by country .....	12
	6.3 Country estimates .....	13
	6.4 Regions of the United Nations and the World Health Organization .....	16
	6.5 Global, regional and subregional rates and numbers .....	17
<b>7</b>	<b>Estimates of perinatal and neonatal mortality: analysis and interpretation</b> .....	<b>19</b>
	7.1 Neonatal mortality .....	19
	7.2 Perinatal mortality .....	20
	7.3 Intrapartum stillbirths .....	20
	7.4 Sex differentials in neonatal and early neonatal mortality and stillbirths .....	22
	7.5 Comparison with earlier estimates .....	22
	7.6 Limitations of estimates .....	24
<b>8</b>	<b>The way forward</b> .....	<b>24</b>
<b>9</b>	<b>References</b> .....	<b>25</b>
<b>Annexes</b>		
Annex 1:	Country estimates .....	29
Annex 2:	Estimates by WHO region and subregion .....	41
Annex 3:	Extract from the <i>International statistical classification of diseases and related health problems</i> , 10 <sup>th</sup> revision (ICD-10) .....	43
Annex 4:	Estimating neonatal and early neonatal mortality rates when data were not available .....	47
Annex 5:	Confidence intervals for neonatal and early neonatal mortality rates .....	49
Annex 6:	Estimating stillbirth rates when data were not available .....	53
Annex 7:	Estimating intrapartum stillbirth rates .....	61
Annex 8:	Male-to-female ratio in neonatal, early neonatal and stillbirth mortality .....	65
Annex 9:	Countries and territories grouped by United Nations and WHO regions .....	67

## Figures

Figure 6.1	Neonatal mortality rate, by country, 2000 (map)	14
Figure 6.2	Perinatal mortality rate, by country, 2000 (map)	15
Figure 7.1	Mortality rates by geographical regions, 2000	19
Figure 7.2	Neonatal mortality by region, 1995 and 2000	22
Figure 7.3	Neonatal mortality by subregion, 1995 and 2000	23
Figure 7.4	Perinatal mortality by region, 1983, 1995 and 2000	23
Figure 7.5	Perinatal mortality by subregion, 1983, 1995 and 2000	23
Figure A4.1	Regression analysis of neonatal mortality with WHO under-five mortality estimates adjusted for AIDS prevalence	47
Figure A4.2	Regression analysis of early neonatal mortality with neonatal mortality using survey data	47
Figure A4.3	Regression analysis of early neonatal mortality with neonatal mortality, combining survey and registration data	47
Figure A6.1	Mortality rates in Norway over 100 years	54
Figure A6.2	Mortality rates by WHO subregion, 2000	57
Figure A8.1	Regression of neonatal mortality with the corresponding male-to-female mortality ratio, for 121 developing-country surveys	65
Figure A8.2	Regression of neonatal, early neonatal and stillbirth mortality with the corresponding male-to-female mortality ratio	66

## Tables

Table 5.1	Mortality data in the estimation dataset for 192 countries/areas with a population of 300 000 or more	9
Table 5.2	Neonatal mortality data obtained from registration and surveys	10
Table 6.1	Global estimates of stillbirths, early neonatal, perinatal and neonatal mortality rates and numbers by level of development and geographical (United Nations) regions and subregions, 2000	18
Table 7.1	Intrapartum stillbirth mortality for the year 2000, by United Nations region and subregion	21
Table 8.1	Relationship between mortality rates by level of development and region	24
Table A1.1	Country estimates of stillbirths, perinatal, early neonatal and neonatal mortality rates and numbers for the year 2000	29
Table A2.1	Estimates of stillbirths, early neonatal, perinatal and neonatal mortality rates and numbers by WHO region and subregion, 2000	41
Table A2.2	Intrapartum stillbirth mortality for the year 2000 by WHO region and subregion	42
Table A5.1	Neonatal and early neonatal mortality rates and numbers with their upper and lower bounds by United Nations geographical region	51
Table A5.2	Neonatal and early neonatal mortality rates and numbers with their upper and lower bounds by WHO region and mortality subregion	52
Table A6.1	Mean stillbirth/early neonatal mortality ratios by WHO mortality regions	53
Table A6.2	SBR/ENMR ratio at different early neonatal mortality levels from different sources and long-term data series	55
Table A6.3	SBR/ENMR ratios to estimate stillbirth rates for countries with no data	56
Table A7.1	Antepartum deaths as a percentage of stillbirths in developed and developing countries	61
