PREFACE ix

## I. GENERAL BACTERIOLOGY

1. HISTORY, SCOPE, AND CLASSIFICATION OF BACTERIA 3
2. CYTOLOGY 11
3. NUTRITION 29
4. GROWTH AND REPRODUCTION 37
5. LABORATORY CULTIVATION, ISOLATION, AND IDENTIFICATION 49
6. ENZYMES 73
7. ENERGY METABOLISM 81
8. BIOSYNTHESIS AND METABOLIC CONTROL 97
9. STORAGE AND TRANSFER OF GENETIC INFORMATION 109

## II. CONTROL OF MICROORGANISMS

10. STERILIZATION AND DISINFECTION 133
11. CHEMOTHERAPY 169

## III. HOST-PARASITE INTERACTION

12. INTERACTION BETWEEN HOST AND INFECTIOUS AGENTS 193

## IV. IMMUNOLOGY

13. NONSPECIFIC HOST RESISTANCE FACTORS 215
14. ACQUIRED IMMUNITY 227
15. IN VITRO ANTIGEN-ANTIBODY REACTIONS 257
16. IMMUNOLOGICAL DISORDERS 275

## V. BACTERIA THAT CAUSE INFECTIOUS DISEASE

17. INTRODUCTION TO THE BACTERIAL DISEASES 309
18. THE GRAM-POSITIVE COCCI 317
19. THE GRAM-NEGATIVE DIPLOCOCCI: THE *NEISSERIA* 345
20. THE GRAM-POSITIVE SPOREFORMERS: THE BACILLI AND CLOSTRIDIA 359
21. *CORYNEBACTERIUM DIPHTHERIAE* 373

- 22. THE GRAM-NEGATIVE ENTERIC BACILLI AND RELATED ORGANISMS 381
- 23. THE GRAM-NEGATIVE COCCOBACILLARY AEROBIC BACTERIA 411
- 24. MYCOBACTERIA 423
- 25. THE SPIROCHETES 433
- 26. MYCOPLASMAS AND L-FORMS 449
- 27. RICKETTSIAE AND CHLAMYDIAE 457
- ADDENDUM: LEGIONNAIRES' DISEASE 469

## **VI. VIROLOGY**

- 28. VIRUSES 475
- 29. SELECTED VIRAL DISEASES 515

## **VII. MEDICAL MYCOLOGY**

- 30. THE PATHOGENIC FUNGI 581

## **VIII. MEDICAL PARASITOLOGY**

- 31. THE PROTOZOA, HELMINTHS, AND ARTHROPODS 617

## **IX. SELECTED TOPICS**

- 32. ORAL MICROBIOLOGY 661
- 33. HOSPITAL-ACQUIRED INFECTIONS 687
- 34. INFECTIONS CAUSED BY NONSPOREFORMING ANAEROBES 701

GLOSSARY 717
