Preface	vii
Acknowledgements	xii
<b>Chapter 1. An introduction to futures</b>	<b>1</b>
1.1 What does "futures" mean?	1
1.2 The challenge: learning to construct a project	4
1.3 Terminology	6
1.4 Scenarios: images of the future	6
1.5 Perceptions of the future	10
1.6 Values	11
1.7 Focus	12
1.8 Application to policy-making, planning, and programmes	13
1.9 General purpose and scenario choice	13
1.10 Styles of approach	16
<b>Chapter 2. Interviews with leaders of futures projects</b>	<b>18</b>
2.1 In-house project at the ministry of health about essential public health functions	18
2.2 Envisioning desired health-futures scenarios for different regions of the country	24
2.3 A study to improve foresight regarding future threats to health	29
2.4 A project to analyse the effects of policies in other sectors on future health	33
2.5 A permanent national health-futures programme	38
<b>Chapter 3. Implementation of futures work</b>	<b>43</b>
3.1 Basic activities	43
3.2 Factors promoting effectiveness	56

<b>Chapter 4. Common components</b>	76
4.1 The concept of components	76
4.2 The common components	76
4.3 Putting the pieces together: an example of a project design	101
<b>Chapter 5. Alternative designs</b>	108
5.1 How designs can vary	108
5.2 Exercises with only a few components	109
5.3 Streamlined and compressed designs	111
5.4 Reiterative designs	116
5.5 Alternative designs for fully fledged projects	118
5.6 Guidelines for selecting designs	125
<b>Chapter 6. Methods and tools</b>	128
6.1 The functions of tools	128
6.2 Types of futures tools	137
6.3 Computer software and models	165
6.4 Tool kits and consulting services	175
6.5 Application of futures tools and criteria for selection	176
<b>Chapter 7. Application of futures techniques to health</b>	181
7.1 Current status	181
7.2 Basic considerations for health-futures projects	182
7.3 Recommendations for health-futures teams	196
7.4 Designs for health-futures activities	199
7.5 Examples of actual health-futures activities	209
<b>Chapter 8. Printed and on-line information resources</b>	226
8.1 Introduction to information-seeking	226
8.2 Finding information locally	231
8.3 Finding information on-line	243
<b>Chapter 9. Directory</b>	275
9.1 International futures organizations, directories, and programmes	275
9.2 Futures training programmes	277
9.3 Health-futures networks and organizations	278
9.4 Health-futures contacts in WHO	280
9.5 National programmes in health futures	281
9.6 Computer networking information	282
9.7 Potential funding sources	283
9.8 Selected publishers, booksellers, libraries, and distributors	285

Glossary	289
Annex Drawing up a budget and seeking funding	306
Index	309
<b>Illustrations</b>	
Figure 1. The future as a cone of probabilities	8
Figure 2. Example of a project design	102
Figure 3. Example of a futures wheel	154
<b>Tables</b>	
Table 1. Some approaches to framing scenarios	87
Table 2. Steps in the invention of a project design	126
Table 3. General relationship between functions and tools	130
Table 4. Example of a simple structural analysis matrix	148
Table 5. Example of a simple time-space grid	153
Table 6. Example of a simple cross-impact matrix	162
<b>Boxes</b>	
Box 1. Scenario types and labels	9
Box 2. Checklist of basic items for the terms of reference	45
Box 3. Questions to be considered in establishing a team for a project	50
Box 4. Potential members of an advisory board	53
Box 5. Examples of summary paragraphs from terms of reference	59
Box 6. Methods of increasing participation in a futures project	61
Box 7. Some ways in which a futures team can use microcomputers	65
Box 8. Questions frequently asked about project components and scenarios	100
Box 9. Examples of how futures methods and tools can be applied outside formal futures projects	178
Box 10. Memorandum dated 1 June 2003, to the Minister of Health from the Director-General of the Department of Health Planning and Policy-making	183
Box 11. Examples of possible topics for health-futures projects	188
Box 12. Examples of search terms relevant to national health-futures activities	228
Box 13. Some journals relevant to national health-futures activities	233
Box 14. Examples of computer-readable CD-ROM and on-line indexes likely to be relevant to national health-futures activities	240
Box A1. Checklist for a project budget	307
