

# Contents

## **Chapter 1**

<i>Anatomy</i> .....	1
----------------------	---

## **Chapter 2**

<i>Physiologic Considerations</i> .....	11
---	----

## **Chapter 3**

<i>Hemodynamics</i> .....	31
---------------------------	----

## **Chapter 4**

<i>General Discussion of Arrhythmias</i> .....	36
--	----

## **Chapter 5**

<i>Sinus Irregularities</i> .....	42
-----------------------------------	----

## **Chapter 6**

<i>Atrial Flutter</i> .....	55
-----------------------------	----

## **Chapter 7**

<i>Atrial Fibrillation</i> .....	65
----------------------------------	----

## **Chapter 8**

<i>Premature Beats</i> .....	81
------------------------------	----

## **Chapter 9**

<i>Paroxysmal Atrial Tachycardia (PAT)</i> .....	102
--	-----

## **Chapter 10**

<i>A-V Heart Block</i> .....	115
------------------------------	-----

<b>Chapter 11</b>	
<i>Disturbances in the Region of the A-V Junction.....</i>	<i>144</i>
<b>Chapter 12</b>	
<i>A-V Dissociation .....</i>	<i>168</i>
<b>Chapter 13</b>	
<i>Pre-excitation Syndromes .....</i>	<i>178</i>
<b>Chapter 14</b>	
<i>Paroxysmal Ventricular Tachycardia.....</i>	<i>189</i>
<b>Chapter 15</b>	
<i>Ventricular Flutter and Fibrillation.....</i>	<i>207</i>
<b>Chapter 16</b>	
<i>Cardiac Arrest.....</i>	<i>214</i>
<b>Chapter 17</b>	
<i>Alternation of the Heart.....</i>	<i>222</i>
<b>Chapter 18</b>	
<i>Methods Employed in ECG Diagnosis of an Arrhythmia .....</i>	<i>229</i>
<b>Chapter 19</b>	
<i>Syncopal Attacks.....</i>	<i>239</i>
<b>Chapter 20</b>	
<i>Stress Tests Producing Arrhythmias: Exercise, Emotion, Respiratory Maneuvers, and Atrial Pacing.....</i>	<i>248</i>
<b>Chapter 21</b>	
<i>Pregnancy.....</i>	<i>257</i>
<b>Chapter 22</b>	
<i>Congenital Cardiac Anomalies.....</i>	<i>261</i>
<b>Chapter 23</b>	
<i>Arrhythmias in Infants, Children, and in the Fetus.....</i>	<i>266</i>

<b>Chapter 24</b>	
<i>Endocrine Disturbances</i> .....	275
<b>Chapter 25</b>	
<i>Anesthesia and Surgery</i> .....	279
<b>Chapter 26</b>	
<i>Cardiac Catheterization and Angiocardiography</i> .....	284
<b>Chapter 27</b>	
<i>Brain and Heart Relationships</i> .....	290
<b>Chapter 28</b>	
<i>Coronary Artery Disease and Myocardial Infarction</i> .....	295
<b>Chapter 29</b>	
<i>Disturbances of Electrolyte Balance</i> .....	312
<b>Chapter 30</b>	
<i>Infectious Diseases and Other Disease States</i> .....	320
<b>Chapter 31</b>	
<i>General Methods Available in Therapy</i> .....	325
<b>Chapter 32</b>	
<i>Drugs Which Increase Cardiac Automaticity</i> .....	329
<b>Chapter 33</b>	
<i>Agents Which Decrease Cardiac Automaticity</i> .....	339
<b>Chapter 34</b>	
<i>Digitalis</i> .....	375
<b>Chapter 35</b>	
<i>Electrolytes Employed in Therapy</i> .....	387
<b>Chapter 36</b>	
<i>Other Drugs</i> .....	394

<b>Chapter 37</b>	
<i>Artificial Pacemakers</i> .....	404
<b>Chapter 38</b>	
<i>Defibrillation and Electric Countershock</i> .....	426
<i>Glossary</i> .....	437
<i>Index</i> .....	447
