

Contents

	Preface	v
	List of abbreviations	vi
1	Introduction (V. Marks and F.C. Rose)	1
2	The regulation of blood glucose (V. Marks)	3
3	Cerebral metabolism and hypoglycaemia (H. Bachelard)	51
4	Physiological responses to hypoglycaemia (V. Marks)	69
5	Symptomatology (V. Marks)	90
6	Classification of hypoglycaemia (V. Marks)	110
7	Pancreatic hypoglycaemia: Hyperinsulinism (V. Marks)	115
8	Pancreatic hypoglycaemia—other causes (V. Marks)	158
9	Reactive (rebound) hypoglycaemia (V. Marks)	179
10	Hepatogenous and nephrogenic hypoglycaemia (V. Marks)	216
11	Endocrine hypoglycaemia (V. Marks)	227
12	Extra-pancreatic neoplasms (V. Marks)	246
13	Neonatal hypoglycaemia (V. Marks)	267
14	Hypoglycaemia in childhood (V. Marks)	285
15	Inborn errors of metabolism (V. Marks)	324
16	Drug-induced hypoglycaemia (V. Marks)	357
17	Alcohol-induced hypoglycaemia (V. Marks)	387

18	Other causes of spontaneous hypoglycaemia (V. Marks)	399
19	The investigation of hypoglycaemia (V. Marks)	411
20	Electroencephalography (F.C. Rose)	464
21	Treatment (V. Marks)	475
22	Brain damage due to hypoglycaemia (J.B. Brierley)	488
