PREFACE	9
CHAPTER 1/ A REVIEW OF THYROID FUNCTION TESTS	11
Introduction	12
1.1 Direct measurements of thyroid hormones in blood	12
1.2 Direct measurement of TSH in blood	15
1.3 Normal ranges	18
1.3.1 Normal range for FT4	19
1.3.2 Normal range for FT3	19
1.3.3 Normal range for TSII	20
1.3.4 Normal range for FT4 and FT3 in pregnancy	20
1.4 Radioisotope tests of thyroid function	20
1.4.1 <sup>99m</sup> TcTechnetium scans	21
1.4.2 <sup>125</sup> I scans	22
1.5 Normal operation of the pituitary/thyroid axis	22
1.6 The use of a strategic approach to define thyroid status	24
1.7 Clinical information required on a thyroid function test request	26
CHAPTER 2/ HYPERTHYROIDISM	29
Introduction	30
2.1 Pituitary/thyroid axis in hyperthyroidism	31
2.2 The laboratory diagnosis of hyperthyroidism	32
2.3 The effect of treatment on thyroid function tests in hyperthyroidism	34
2.3.1 Antithyroid drugs	34
2.3.2 <sup>131</sup> I therapy	42
2.3.3 Subtotal thyroidectomy	44
2.4 Hyperthyroidism in particular situations	44
2.4.1 T3 toxicosis	44
2.4.2 Apathetic thyrotoxicosis	46

## CONTENTS

CHAPTER 2/continued	
2.4.3 Euthyroid Graves' disease	41
2.4.4 T4 toxicosis	41
2.4.5 Pregnancy and neonatal hyperthyroidism	41
2.4.6 Thyrotoxicosis factitia	41
2.4.7 'Jod Basedow' phenomenon	41
2.4.8 Thyroid storm	41
CHAPTER 3/ <b>HYPOTHYROIDISM</b>	50
<b>Introduction</b>	50
<b>3.1 Primary thyroid failure</b>	50
<b>3.2 The strategic approach in the investigation of primary hypothyroidism</b>	55
3.2.1 The management of "compensated hypothyroidism"	60
3.2.2 Paradoxical presentation of hypothyroidism	60
<b>3.3 Hypothyroidism in special situations</b>	61
<b>3.4 Secondary (pituitary) hypothyroidism</b>	62
3.4.1 The strategic approach in the investigation of pituitary hypothyroidism	62
<b>3.5 The treatment of primary and pituitary hypothyroidism</b>	64
3.5.1 Thyroid function tests in thyroxine replacement therapy	65
3.5.2 The strategic approach in monitoring thyroxine replacement therapy	67
CHAPTER 4/ <b>SINGLE AND MULTIPLE THYROID NODULES</b>	71
<b>Introduction</b>	71
<b>4.1 Classification of thyroid nodules</b>	72
4.1.1 Hyperplastic nodules	72
4.1.2 Degenerative nodules	72
4.1.3 Inflammatory nodules	73
4.1.4 Benign non-functional nodules	73
4.1.5 Autonomously functioning adenoma	73
4.1.6 Multinodular goitre	73
4.1.7 Malignant neoplasms	74

# CONTENTS

	CHAPTER 4/continued	
44	4.2 Investigation of thyroid nodules	74
46	4.3 Autonomous nodules and thyroid cancer	76
47	CHAPTER 5/ THYROIDITIS	79
48	CHAPTER 6/ NON-THYROIDAL ILLNESS AND THYROID FUNCTION TESTS	87
49	Introduction	88
49	6.1 Patterns of thyroid hormone levels in non-thyroidal illness	88
53	6.1.1 Low T3 syndrome in NTI	88
54	6.1.2 Transient elevations of T4 with normal T3	89
55	6.1.3 Persistent elevation in FT4 with transiently normal or low FT3	89
sm" 60	6.1.4 Low T4 syndrome in NTI	89
60	6.1.5 FT4 estimates by equilibrium dialysis in low T4-NTI	90
61	6.1.6 FT4 by analogue type assays in low T4-NTI	90
62	6.1.7 TSH in low T4-NTI	92
63	6.2 Thyroid hormone levels in particular diseases	93
63	6.3 Conclusion	93
idism 64	CHAPTER 7/ THE EFFECT OF DRUGS ON THYROID FUNCTION TESTS	97
65	Introduction	98
67	7.1 Effects on thyroid gland function	98
71	7.2 Drugs inhibiting peripheral deiodination of T4 to T3	99
72	7.3 Effects on thyroid hormone catabolism	101
72	7.4 Effects on pituitary/thyroid axis	101
72	7.5 Artefacts resulting from assay interference	101
72	7.6 Implications for a strategic approach to thyroid function tests	102
73	CHAPTER 8/ THYROTROPIN-RELEASING HORMONE TEST	105
73	Introduction	106
73	8.1 TRH actions in normal subjects	106
73	8.2 TRH and the pituitary/thyroid axis	106
74		

## CONTENTS

CHAPTER 8/continued	
8.3 Standard TRH test	107
8.4 Results in primary hypothyroidism	107
8.5 Results in hyperthyroidism	107
8.6 Results in pituitary/hypothalamic disease	110
8.6.1 Known pituitary/hypothalamic disease	110
8.6.2 Unsuspected pituitary/hypothalamic hypothyroidism	110
8.7 Effects of drugs and non-thyroidal illnesses on TSH response to TRH	111
8.7.1 Drugs	111
8.7.2 Non-thyroidal illnesses	111
APPENDIX 1/THE FT3/FT4 RATIO	114
APPENDIX 2/THYROID HORMONE BINDING ANTIBODIES	114
INDEX	120
