

TABLE OF CONTENTS

	Page
Introduction	1
Case Histories	3
Metabolism of Glucose	17
Formation of glucose 6-phosphate	21
Glycogen formation	25
Glycolysis	27
Formation of acetyl-CoA	29
The Tricarboxylic Acid Cycle	29
Metabolism of Fat	37
Regulation of the Blood Sugar	47
Effects of insulin	47
Effects of cortisol	51
Pathogenesis of Diabetic Acidosis	69
The Clinical Picture of Diabetic Acidosis	77
Treatment of Diabetic Acidosis	93
Insulin	93
Use of fluids and salt	105
Use of glucose and fructose	109
Use of potassium and phosphate	137
Diagrammatic Figures	22, 24, 26, 28, 30, 32, 36, 46, 74 92, 104, 112, 122, 132, 140, 144
Diabetic Flow Sheet	152
Case Histories	154
Bibliography	168
