

# TABLE OF CONTENTS

<b>ACKNOWLEDGEMENTS.....</b>	<b>VII</b>
<b>PREFACE.....</b>	<b>VIII</b>
<b>FOREWORD.....</b>	<b>1</b>
<b>1. HISTORICAL DEVELOPMENT OF MALARIA CONTROL .....</b>	<b>4</b>
<b>1.1. Empirical development of methods of control.....</b>	<b>4</b>
1.1.1. Prevention of disease.....	4
1.1.2. Prevention of mosquito bites.....	8
1.1.3. Specific disease treatment .....	9
<b>1.2. Different perceptions of the malaria problem and its control.....</b>	<b>10</b>
<b>1.3. The malaria problem during the first half of the twentieth century .....</b>	<b>12</b>
1.3.1. The Italian strategy.....	12
1.3.2. Early success and failures of mosquito control up to the First World War.....	15
1.3.3. Malaria control during the First World War, the great post-war epidemics. Anophelism without malaria.....	16
1.3.4. The Dutch school .....	17
1.3.5. Malaria control in the United States.....	18
1.3.6. The recognition of spontaneous disappearance.....	20
1.3.7. The new school of malariology and the strategy of the Malaria Commission.....	23
1.3.8. Early detection and control of malaria epidemics, study of risk and epidemic forecasting .....	24
1.3.9. The revival of vector control, the integrated transmission control or <u>bonifica integrale</u> .....	26
1.3.10. Man-made malaria, landscape epidemiology .....	29
1.3.11. The medical and the public health approach. Value of achievements .....	31
1.3.12. Achievements of malaria control before the advent of DDT .....	32
<b>2. THE GLOBAL MALARIA ERADICATION CAMPAIGN.....</b>	<b>34</b>
<b>2.1. The genesis and launching of the global malaria eradication programme .....</b>	<b>34</b>
<b>2.2. Implementation of the global malaria eradication campaign .....</b>	<b>43</b>
<b>2.3. The neglect of local epidemiology .....</b>	<b>51</b>
<b>2.4. Implementation problems .....</b>	<b>54</b>
<b>2.5. Relations with the general health services .....</b>	<b>56</b>
<b>2.6. Doubts about the feasibility of malaria eradication .....</b>	<b>57</b>
<b>2.7. Research.....</b>	<b>58</b>
<b>2.8. The re-examination of the malaria eradication strategy .....</b>	<b>59</b>
<b>2.9. Problems of adapting malaria eradication programmes to the objective of control.....</b>	<b>60</b>
<b>2.10. Overall evaluation of the malaria eradication programmes .....</b>	<b>63</b>
<b>2.11. Fallacies of the eradication proposal.....</b>	<b>65</b>

<b>3. FINANCING ANTIMALARIAL ACTIVITIES .....</b>	<b>66</b>
3.1. International collaboration and support.....	71
3.2. The WHO Malaria Eradication Special Account (MESA) .....	77
<b>4. THE REVISED GLOBAL STRATEGY FOR MALARIA CONTROL .....</b>	<b>83</b>
4.1. Evolution of the problem and revision of the malaria control strategy .....	83
4.2. The elements of the global strategy .....	85
4.3. The use of impregnated bednets and risks of interfering with the development of immunity .....	87
4.4. Human resources development.....	89
4.5. Support of research in malaria .....	90
4.6. Control and prevention of malaria epidemics .....	92
4.7. Intersectoral collaboration and community participation .....	95
4.8. The programme of support to Africa .....	98
<b>5. MALARIA, ECONOMIC DEVELOPMENT AND SUSTAINABLE DEVELOPMENT.....</b>	<b>100</b>
5.1. Malaria as an obstacle to economic development .....	102
5.2. Malaria control as an instrument for economic development.....	104
5.3. Minimum development required as a prerequisite for malaria control.....	105
5.4. The health and ecological impact of economic development projects .....	106
5.5. Malaria and sustainable development.....	106
<b>6. PERSPECTIVES OF MALARIA CONTROL .....</b>	<b>108</b>
