Preface vii

## PART I. DIRECT INVOLVEMENT OF THE NERVOUS SYSTEM IN CARCINOMA

1	Introduction: On Certain Epidemiological Aspects of Carcinoma	3
2	Metastases to the Brain	7
3	Neurological Disorders Deriving from Neighbouring Tumours	59
4	Carcinomatous Meningitis	100
5	Involvement of the Vertebral Column and Spinal Cord	120
6	Metastatic Lesions of Peripheral Nerves, Nerve Plexuses and Muscles	155

## PART II. DIRECT INVOLVEMENT OF THE NERVOUS SYSTEM IN THE RETICULOSES

7	Involvement of the Nervous System in the Reticuloses	171
8	Cranial Deposits in Myeloma, Lymphoma and Leukaemia	184
9	Intracranial Tumours in Lymphoma, Myeloma and Leukaemia	203
10	Diffuse Infiltration by Lymphoma and Leukaemia	227
11	Spinal Compression in Lymphoma, Myeloma and Leukaemia	268

12	Isolated Involvement of Peripheral Nerves and Plexus in Myeloma, Lymphoma and Leukaemia	305
----	---	-----

PART III. PARANEOPLASTIC DISORDERS

13	The Concept of Paraneoplastic Disorders	311
14	Encephalomyelitis	314
15	Cortical Cerebellar Degeneration	346
16	Peripheral Neuropathy	368
17	Muscular and Neuromuscular Disorders	406
18	Miscellaneous, and some Possibly Fortuitous, Associations	432
19	Vascular Disorders	452
20	Neurological Complications of Paraproteinaemia	472
21	Infections	487
22	Specific Nutritional Disorders	534
23	Endocrine and Metabolic Disorders	544
24	Iatrogenic Complications: Unwanted Effects of Treatment	573
	Index	623
