

# Contents

1	The Neurological Consultation	1
	Terminology	1
	Historical Events	2
	Clinical Examination	4
	Prognostic Indicators	15
	The Consultation Note	17
2	Convulsions	20
	Convulsive Patterns	20
	Differential Diagnosis	25
	Treatment	37
3	Hypotonia, Arthrogryposis, and Rigidity	45
	Hypotonia	45
	Diagnostic Approach in Hypotonia	47
	Cerebral Hypotonia with Acute Encephalopathy	49
	Cerebral Hypotonia with Chronic Encephalopathy	49
	Motor Neuron Diseases	53
	Cervical Myelopathies	56
	Polyneuropathy	57
	Disorders of Neuromuscular Transmission	58
	Congenital Myopathies with Fiber Type Disproportion	61
	Mitochondrial Myopathies	66
	Arthrogryposis	67
	Myopathic Arthrogryposis	68
	Neurogenic Arthrogryposis	70
	Rigidity	72
4	Asphyxia	79
	Hypoxic-Ischemic Encephalopathy	79
	Intraventricular Hemorrhage	92
	Primary Subarachnoid Hemorrhage	99
5	Trauma and Vascular Anomalies	105
	Trauma	105
	Injuries to the Skull and Scalp	105
	Intracranial Hemorrhage	110
	Spinal Cord Injuries	117
	Facial Nerve Palsy	119
	Brachial Plexus Palsy	121

	Vascular Anomalies	122
6	Infectious Diseases	127
	Bacterial Meningitis	127
	Toxoplasmosis	131
	Rubella Embryopathy	136
	Cytomegalic Inclusion Disease	140
	Herpes Simplex Encephalitis	145
7	Metabolic Disorders	158
	Disorders of Thyroid Function	158
	Disorders of Carbohydrate Metabolism	162
	Disorders of Amino Acid Metabolism	169
	Disorders of Lipid Metabolism	183
8	Disorders of Cerebral Morphogenesis	194
	Neurolation	194
	Prosencephalization	207
	Histogenesis	212
9	Hydrocephalus and Congenital Tumors	220
	Hydrocephalus	220
	Developmental Disorders of the Ventricular System	220
	Congenital Tumors	224
	Congenital Brain Tumors	224
	Congenital Spinal Cord Tumors	228
	Neurocutaneous Syndromes (Phakomatoses)	229
10	Neonatal Electroencephalography	235
	Methodology	235
	Normal Patterns	238
	Abnormal Patterns	246
	Index	261
