

CONTENTS

1. THE FIELD OF PEDIATRICS

The Field of Pediatrics.....	1
<i>Victor C. Vaughan, III, and R. James McKay</i>	

2. DEVELOPMENTAL PEDIATRICS

Growth and Development	13
Some Aspects of Growth and Development	13
Fetal Growth and Development	17
The Newborn Infant	19
Growth and Development of the Infant Born Prematurely	21
Growth During the First Year	22
Growth and Development in the Second Year	24
Growth and Development During the Preschool Years	26
Growth and Development During the Early School Years.....	26
Growth and Development in Adolescence.....	27
Special Aspects of Growth	29
Assessment of Physical Growth and Development	38
Assessment of Neurologic and Psychologic Development	50
<i>Victor C. Vaughan, III</i>	
Psychologic Development	52
Biologic Factors	52
Environmental Factors	54
Psychologic Factors.....	55
General Principles Governing Child Development	57
Aims in Child Development.....	65
Stages of Psychologic Development.....	65
<i>Calvin F. Settlage</i>	
Psychologic Assessment of the Child	66
<i>J. M. Dunn</i>	

Prevention of Psychologic Disorders	68
--	----

<i>Role of the Physician in Prevention of Psychologic Disorders in the Well Child ...</i>	68
General Developmental Issues	68
<i>Esther L. Cava</i>	

Critical Developmental Issues.....	70
<i>Marc A. Forman and William H. Hetznecker</i>	

<i>Role of the Physician in Prevention of Psychologic Disorders in the Sick Child ...</i>	80
<i>J. M. Dunn</i>	

Psychologic Disorders	83
Psychopathology	83
General Considerations in Diagnosis and Treatment.....	86
Categories of Psychologic Disorders.....	88
<i>Calvin F. Settlage</i>	

<i>Role of the Physician in Management of Established Psychologic Disorders</i>	104
<i>J. M. Dunn</i>	

Neglect and Abuse of Children	107
The Spectrum of Child Abuse and Neglect	107
<i>Barton D. Schmitt and C. Henry Kempe</i>	

Drug Abuse by Adolescents	112
<i>Robert A. Kramer</i>	

Disorders of Communication	117
Hearing Disorders	117
<i>Richard W. Olmsted</i>	

Speech and Language Development and Disorders	120
<i>Herold Lillywhite</i>	

Reading Disabilities	123
<i>John B. Isom</i>	

Cerebral Dysfunction (Learning Disorders)	127
<i>John B. Bartram</i>	

Mental Retardation	130
Phenylketonuria	132

2. DEVELOPMENTAL PEDIATRICS—Continued**Mental Retardation—Continued**

Down Syndrome (Mongolism)	134
Differential Diagnosis of Mental Retardation	136
<i>John B. Bartram</i>	

The Physician and the Child with a Permanent Handicap

<i>John B. Bartram</i>	139

Disturbances of Organ Systems	361
Disturbances of the Respiratory Tract.....	361
Disturbances of the Digestive System.....	373
Disturbances of the Blood.....	381
Disturbances of the Genitourinary System.....	389
Disturbances of the Cranium.....	390
Disorders of the Skin.....	390
The Umbilicus.....	390
Metabolic Disturbances.....	392
Disturbances of the Endocrine System.....	395
Infants of Diabetic Mothers.....	395
Hypoglycemia.....	396

Richard E. Behrman

Infections of Newborn	398
Staphylococcal Infections.....	400
Pseudomonas Infections.....	402
Diarrhea in the Newborn.....	402
Infection Due to Listeria Monocytogenes.....	403
Group B Streptococcal Infection.....	404
Vibrio Fetus Infection.....	404
Viral Infections.....	404

Richard E. Behrman

8. INBORN ERRORS OF METABOLISM

Introduction	407
Table of Inborn Errors.....	409

Victor H. Auerbach and Angelo M. DiGeorge

Defects in Metabolism of Amino Acids	412
Phenylalanine.....	412
Tyrosine.....	414
Methionine.....	416
Cystine.....	418
Tryptophan.....	418

8. INBORN ERRORS OF METABOLISM—Continued**Defects in Metabolism of Amino Acids—Continued**

Valine, Leucine, Isoleucine.....	419
Glycine.....	423
Proline and Hydroxyproline.....	425
Glutamic Acid.....	426
Urea Cycle.....	426
Histidine.....	428
Beta Amino Acids.....	430
Lysine.....	430

Victor H. Auerbach and Angelo M. DiGeorge

Defects in Metabolism of Carbohydrates...

Defects in Absorption of Carbohydrates.....	432
Defects in Monosaccharide Metabolism.....	433
Galactose.....	434
Miscellaneous Aspects of Carbohydrate Metabolism.....	437
Glycogenoses: Disorders of Glycogen Metabolism (Glycogen Storage Diseases).....	439
Double Enzymatic Defects.....	447

Victor H. Auerbach and Angelo M. DiGeorge

Defects of Metabolism of Pyrimidines and Purines.....

.....	447
-------	-----

Victor H. Auerbach and Angelo M. DiGeorge

Other Defects of Enzymes and Proteins.....

Defects in Plasma Proteins	451
Defects in Plasma Enzymes	452
Defects of Proteins of Other Tissues	453

Victor H. Auerbach and Angelo M. DiGeorge

Epilogue.....

Victor H. Auerbach and Angelo M. DiGeorge

The Lipidoses.....

Gaucher's Disease.....	457
Niemann-Pick Disease.....	458
Tay-Sachs Disease.....	459
Recently Described Syndromes.....	461
Syndromes with Increased Blood Fat.....	461
Skin Xanthomas.....	462

Allen C. Crocker

Defects in Pigment Metabolism.....

The Porphyrrias.....	464
Hereditary Methemoglobinemias.....	470
Hemochromatosis.....	471

J. Julian Chisolm, Jr.

9. THE IMMUNOLOGIC SYSTEM, ALLERGY AND RELATED DISEASES**Immunity and Allergy.....**

Charles A. Janeway

The Immunologic System.....

Components of the Immunologic System.....	474
Immunologic Responses.....	477
Maturation of Immunologic Function.....	479

Charles A. Janeway

Immunologic Deficiency Diseases.....

Deficiencies of the Phagocytes.....	480
Immunodeficiency States.....	482

Charles A. Janeway

Allergic Disorders.....

Immunologic Basis of Atopic Disease.....	493
Chemical Mediators of Allergic Injury.....	494
General and Specific Methods of Diagnosis.....	496
Principles of Treatment of Allergic Disorders.....	498
Respiratory Allergy.....	502
Atopic Dermatitis.....	509
Urticaria (Hives).....	512
Anaphylaxis.....	513
Serum Sickness.....	514
Adverse Reactions to Drugs.....	515
Insect Allergy.....	516
Ocular Allergies.....	518
Adverse Reactions to Foods.....	518

Elliot F. Ellis

Rheumatic Diseases.....

Juvenile Rheumatoid Arthritis.....	522
Ankylosing Spondylitis.....	531
Systemic Lupus Erythematosus.....	533
Vasculitis Syndromes.....	535
Dermatomyositis.....	539
Scleroderma.....	541
Erythema Multiforme Exudativum (Stevens-Johnson Syndrome).....	542
Erythema Nodosum.....	542
Goodpasture Syndrome.....	543
Relapsing Nodular Nonsuppurative Panniculitis (Weber-Christian Syndrome).....	543
"Rheumatoid" Nodules Without Rheumatic Disease.....	544

Jane Green Schaller and Ralph J. Wedgwood

Rheumatic Fever.....

Lewis W. Wannamaker

10. INFECTIOUS DISEASES**Clinical Use of the Microbiology**

Laboratory.....	558
Bacterial Infections.....	558
Spirochetes.....	561
Mycoplasma and L-Forms.....	561
Fungi.....	561
Rickettsiae.....	561
Protozoa.....	561
Helminths.....	562
Viruses.....	562

Application of Microbiology to Diagnostic Problems.....	564	Measles (Rubeola).....	653
<i>Stanley A. Plotkin</i>		German Measles (Rubella, Three-Day Measles).....	659
General Considerations in Bacterial Infections	565	Exanthem Subitum (Roseola Infantum).....	662
<i>Vincent A. Fulginiti</i>		<i>Russell J. Blattner</i>	
Isolation Measures for Infectious Diseases	566	Erythema Infectiosum (Fifth Disease)....	663
<i>Victor C. Vaughan, III</i>		Herpes Simplex.....	664
Bacterial Infections	569	Varicella and Herpes Zoster.....	669
Streptococcal Infections.....	569	Smallpox (Variola).....	672
Pneumococcal Infections.....	573	Vaccination Against Smallpox.....	675
Staphylococcal Infections.....	575	Mumps (Epidemic Parotitis).....	678
Infections Due to Neisseriae.....	578	<i>Carol F. Phillips</i>	
<i>Otto F. Sieber, Jr., and Vincent A. Fulginiti</i>		Epidemic Influenza.....	682
Infections Due to Hemophilus		Rabies (Hydrophobia).....	685
Influenzae.....	581	Yellow Fever.....	688
Hemophilus Aphrophilus.....	583	Lymphogranuloma Venereum.....	690
<i>Sarah H. W. Sell</i>		Infectious Mononucleosis.....	691
Acute Bacterial Meningitis.....	583	Acute Infectious Lymphocytosis.....	693
Pertussis.....	589	Cat-Scratch Disease.....	694
<i>Vincent A. Fulginiti and Otto F. Sieber, Jr.</i>		Cytomegalic Inclusion Disease.....	696
Enteropathogenic Escherichia Coli.....	590	Infectious Neuritis.....	697
Salmonella Infections.....	594	<i>Russell J. Blattner</i>	
Shigellosis (Bacillary Dysentery).....	602	Dengue Fever and Dengue-Like Disease.....	698
<i>David H. Smith</i>		Other Viral Hemorrhagic Fevers.....	702
Cholera.....	606	<i>Scott B. Halstead</i>	
<i>R. James McKay</i>		Infections by Enteroviruses.....	705
Pseudomonas Infections.....	608	<i>E. C. Curnen</i>	
<i>Warren E. Wheeler</i>		Poliomyelitis.....	713
Yersinia Infections.....	610	<i>Alex J. Steigman</i>	
Brucellosis.....	611	Acute Aseptic Meningitis Syndrome.....	721
Tularemia.....	612	Encephalitis.....	723
Diphtheria.....	613	<i>Alex J. Steigman</i>	
Listeriosis.....	617	Rickettsial Diseases	729
Tetanus (Lockjaw).....	619	Typhus Fever.....	731
Infection Due to Clostridial Species.....	622	Murine Typhus.....	732
Other Anaerobic Infections.....	622	Brill's Disease.....	733
<i>Vincent A. Fulginiti and Otto F. Sieber, Jr.</i>		Scrub Typhus.....	733
Tuberculosis.....	625	Rocky Mountain Spotted Fever.....	733
Infections with Unclassified		Fièvre Boutonneuse.....	735
Mycobacteria (Atypical or Anonymous Mycobacteria).....	641	Rickettsialpox.....	735
<i>Robert H. High</i>		Q Fever.....	735
Leprosy (Hansen's Disease).....	642	<i>Eli Gold and Frederick C. Robbins</i>	
<i>Alex J. Steigman</i>		Mycotic Infections	736
Spirochetal Infections	644	Actinomycosis.....	736
Syph.....	644	North American Blastomycosis.....	737
Yaws.....	650	Cryptococcosis (Torulosis).....	738
Pinta.....	650	Phycomycosis (Mucormycosis).....	739
Leptos.....	651	Nocardiosis.....	740
Rat-Bite Fever.....	652	Sporotrichosis.....	740
Relapsing Fever.....	652	Aspergillosis.....	741
<i>Alex J. Steigman</i>		Therapy with Amphotericin B.....	741
Viral Infections and Those Presumed to Be Caused by Viruses	653	<i>Jerome S. Harris</i>	
		Histoplasmosis.....	743
		<i>Amos Christie</i>	
		Coccidioidomycosis.....	747
		<i>Demosthenes Pappagianis</i>	
		Parasitic Infections	749

10. INFECTIOUS DISEASES—Continued

Helminthic Diseases	749
Infections Produced by Roundworms (Nematoda)	749
<i>Ernest Carroll Faust and Paul C. Beaver</i>	
Tropical Eosinophilia	761
<i>Paul C. Beaver</i>	
Dracunculosis (Guinea Worm Infection)	761
Infections Produced by Tapeworms (Cestoda)	761
Infections Produced by Flukes (Trematodes)	765
<i>Ernest Carroll Faust and Paul C. Beaver</i>	
Arthropods	769
Venenating Arthropods	769
Tissue-Invading Arthropods	771
Arthropods As Transmitting Agents of Disease	771
<i>Ernest Carroll Faust and Albert Miller</i>	
Systemic Protozoan Infections	772
Malaria	772
<i>David F. Clyde</i>	
Kala-azar in Children	777
<i>P. M. Udani</i>	
Toxoplasmosis	780
<i>Harry A. Feldman</i>	
Primary Amebic Meningoencephalitis	782
<i>Paul C. Beaver</i>	
Intestinal Protozoa	783
Amebiasis	784
Giardiasis	786
Balantidiasis	786
<i>Paul C. Beaver</i>	

11. THE DIGESTIVE SYSTEM

The Oral Cavity	787
Abnormalities in Growth and Development of the Jaws and Teeth	787
Abnormalities of Development of the Palate and Soft Tissues of the Mouth	796
The Lips	800
The Tongue	800
Salivary Glands	802
<i>Frederick M. Parkins and Giulio J. Barbero</i>	
The Esophagus	803
Congenital Anomalies	803
Acquired Diseases	806
Foreign Bodies in the Esophagus	808
<i>Paul H. Holinger</i>	
The Gastrointestinal Tract	809
Gastrointestinal Symptomatology	809
Poor Appetite	809

Abdominal Pain	810
Gastrointestinal Bleeding	812
Vomiting	813
Fecal Elimination	814
Diarrhea	818
<i>Giulio J. Barbero</i>	
Congenital Anomalies of the Gastro- intestinal Tract and Intestinal Obstruction	820
Congenital Hypertrophic Pyloric Stenosis	821
Congenital Intestinal Obstruction	823
Acquired Intestinal Obstruction	829
<i>Giulio J. Barbero</i>	
Diseases of the Gastrointestinal Tract	831
Peptic Ulcer	833
Mesenteric Lymphadenitis	834
Necrotizing Enterocolitis	834
Irritable Colon Syndrome	834
Inflammatory Disease of the Intestine	835
Pneumatosis Cystoides Intestinalis	839
<i>Giulio J. Barbero</i>	
Intestinal Malabsorption	840
Evaluation of Infant or Child for Malabsorption	840
Evaluation of Absorption of Carbohydrates	841
Evaluation of Fat Absorption	843
Evaluation of Protein Absorption	844
Test for Protein-Losing Enteropathy	844
Tests of Pancreatic Function	844
Tests to Locate Abnormalities	845
Roentgenographic Studies in Malabsorption	845
Peroral Biopsy of the Mucosa of the Intestine	845
<i>M. E. Ament</i>	
Malabsorption Syndromes	846
Congenital, Developmental and Secondary Lactase Deficiency	846
Sucrase-Isomaltase Deficiency	847
Congenital Glucose-Galactose Malabsorption	847
Primary Immune Defects	848
Congenital Chloridorrhea	848
Enterokinase Deficiency	848
Cow's Milk Protein Sensitivity and Intractable Diarrhea of Infancy	848
Malabsorption Due to Parasites	849
Cystic Fibrosis	850
Pancreatic Insufficiency and Bone Marrow Failure	850
Celiac Sprue	851
Short Bowel Syndrome	853
Abetalipoproteinemia	853
Intestinal Lymphangiectasia	854
Whipple's Disease	855
Wolman's Disease	856
Tropical Sprue	856
Malabsorption Due to Small Intestinal Stasis	856

Malabsorption in Biliary Tract		The Liver in Inflammatory Bowel Disease	895
Obstruction	857	Nutritional Liver Diseases	895
Acrodermatitis Enteropathica (AE)	857	<i>Robert Kaye and Philip G. Holtzapple</i>	
Primary Hypomagnesemia	857	Indian Childhood Cirrhosis	895
Amino Acid Malabsorption	857	<i>V. Balagopal Raju</i>	
Vitamin B ₁₂ Malabsorption	857	Fatty Infiltration	896
Congenital Malabsorption of Folic Acid	858	Portal Hypertension	897
<i>M. E. Ament</i>		Esophageal and Gastric Varices	898
Anus, Rectum and Sigmoid	860	Cysts of the Liver	899
Malformations of the Anus and Rectum	860	<i>Robert Kaye and Philip G. Holtzapple</i>	
Fissure in Ano	862	The Gallbladder	899
Pruritus Ani	862	<i>Robert Kaye and Philip G. Holtzapple</i>	
Prolapse and Procidentia of the Rectum and Sigmoid	862	The Bile Ducts	900
Anorectal Abscess	863	Cystic Dilatation and Perforation	900
Fistula	863	Atresia of the Extrahepatic Bile Ducts	900
Hemorrhoids	863	Atresia of the Intrahepatic Bile Ducts	901
Congenital Defects of the Sacrococcygeal Region	863	<i>Robert Kaye and Philip G. Holtzapple</i>	
Appendicitis	864	The Pancreas	903
<i>Robert J. Touloukian, John H. Seashore, and Lawrence K. Pickett</i>		Physiology of the Exocrine Glands of the Pancreas	903
Peritoneum and Allied Structures	866	Tests of Pancreatic Function	904
Malformations of the Peritoneum	866	Differences Between Steatorrheas Due to Pancreatic Maldigestion and Those Secondary to Failure of Absorption	904
Ascites	866	Sweat Tests for Cystic Fibrosis	904
Peritonitis	866	Anomalies of the Pancreas	905
Hernia and Hydrocele	868	Cystic Fibrosis	905
<i>Robert J. Touloukian, John H. Seashore, and Lawrence K. Pickett</i>		Genetic Pancreatic Deficiencies Not Due to Cystic Fibrosis	919
The Liver	872	Pancreatitis	920
Biochemistry of Liver Disease and Liver Function Tests	873	Cysts and Pseudocysts of the Pancreas	921
Bilirubin Metabolism	874	Involvement of the Pancreas in Systemic Disease	921
<i>Robert Kaye and Philip G. Holtzapple</i>		Neoplasms of the Pancreas	921
Disorders Affecting Excretion of Bilirubin	877	<i>Paul A. di Sant'Agnese</i>	
Unconjugated Hyperbilirubinemias	877		
Phototherapy	880		
Persistent Jaundice with Defective Conjugation	880		
Conjugated Hyperbilirubinemias	881		
<i>Robert Kaye and Philip G. Holtzapple</i>			
Infections of the Liver	882		
Neonatal Hepatitis	882		
Infectious Hepatitis	884		
Liver Abscess	887		
<i>Robert Kaye and Philip G. Holtzapple</i>			
Acute Liver Disease	888		
Acute Encephalopathy and Hepatomegaly with Fatty Infiltration	888		
Hepatic Drug Reactions	889		
<i>Robert Kaye and Philip G. Holtzapple</i>			
Chronic Liver Disease	889		
Acquired Hepatic Disease	890		
Hereditary Hepatic Disease	892		
Metabolic Disorders	892		

12. THE RESPIRATORY SYSTEM

Respiratory Physiology and Its Application to Pulmonary Disease	923
Development of the Respiratory System and Initiation of Respiration	923
Control of Respiration	924
Muscles of Respiration	925
Lung Volumes	925
Mechanics of Respiration	926
Ventilation	927
Diffusion	928
Pulmonary Vasculature	929
Ventilation-Perfusion Relations	929
Ciliary Activity	929
Methods of Assessing Ventilatory Function	930
Artificial Respiration	932
Inhalation Therapy	933
<i>Charles Davenport Cook</i>	

12. THE RESPIRATORY SYSTEM—Continued
