

Preface 9

Introduction 11

Cases of genodermatosis and dysplasia 15

 Congenital bullous ichthyosiform erythrodermia (Brocq) in mother and son 17

 Congenital bullous ichthyosiform erythrodermia (Brocq) 23

 Darier's disease (dyskeratosis follicularis)..... 27

 Hyperkeratosis follicularis et parafollicularis in cutem penetrans (Kyrle's disease)..... 31

 Hereditary epidermolysis bullosa dystrophica 35

 Bloom's syndrome (eongenital telangiectatic erythema) 39

 Tricho-rhino-phalangeal syndrome 45

 Progressive lipodystrophy (Simons' disease) ... 49

 Sebaceous adenoma (Pringle's disease) 53

 Sebocystomatosis, associated with hereditary epidermolysis bullosa simplex, which at present is quiescent 57

Inflammatory skin disorders 61

 Metal dermatitis due to bone-wiring 63

 Pityriasis rubra pilaris with chronic secondary vegetations 69

 Erythema elevatum diutinum (Crocker) 75

 Erythema elevatum diutinum (Crocker) 79

 Erythema elevatum diutinum (stage of lipid deposition = extracellular cholesterolosis) ... 85

 Purpura cryoglobulinaemica 91

 Papulosis maligna atrophicans (Köhlmeier-Degos) 97

 Monilial granulomata 101

 Acrodermatitis chronica atrophicans (Pick-Herxheimer) 105

Neoplastic diseases of the skin 109

 Generalised, disseminated arsenical keratosis 111

 Multiple leiomyomata 115

 Mucinosis follicularis in process of transition to mycosis fungoides (Stages II and III) or lymphocytic reticulosis 119

Prólogo 9

Introducción 11

Genodermatosis y displasias cutáneas 15

 Eritrodermia congénita ictiosiforme ampollosa (Brocq) en madre e hijo 17

 Eritrodermia ictiosiforme congénita ampollosa (Brocq) 23

 Enfermedad de Darier (disqueratosis folicular) 27

 Enfermedad de Kyrle (hiperqueratosis folicularis et parafollicularis in cutem penetrans)..... 31

 Epidermólisis ampollosa hereditaria distrófica 35

 Síndrome de Bloom (eritema congénito telangiectásico) 39

 Síndrome tricorriñofalángico 45

 Lipodistrofia progresiva (enfermedad de Barraquer-Simons) 49

 Adenoma sebáceo (enfermedad de Pringle) ... 53

 Sebocistomatosis asociada con una epidermólisis ampollosa hereditaria simple, actualmente subclínica 57

Dermatosis inflamatorias 61

 Dermatitis por asa metálica 63

 Pitiriasis rubra pilaris con vegetaciones secundarias crónicas 69

 Eritema elevatum diutinum (Crocker) 75

 Eritema elevatum diutinum (Crocker) 79

 Eritema elevatum diutinum (estadio lipidoexudativo = colessterinosis extracelular) ... 85

 Púrpura crioglobulinémica 91

 Papulosis maligna atrófica (Köhlmeier-Degos) 97

 Granuloma moniliásico 101

 Acrodermatitis crónica atrofiante (enfermedad de Pick-Herxheimer) 105

Neoplasias cutáneas 109

 Queratodermia arsenical diseminada 111

 Leiomiomas múltiples 115

 Mucinosis folieular evolucionando hacia micosis fungoide (estadio II y III) y reticulosis microcclular 119

114
118
124
130
135
136
142
148
152
156
162
166
170

Macronodular naevoxantho-endothelioma with pulmonary involvement... 125
Lymphatic leukaemia with involvement of the skin ... 131

Skin conditions due to metabolic disturbances ... 135
Scleromyxoedema (Arndt-Gottron) ... 137
Scleromyxoedema (mucinosis papulosa, myxomatosis cutis papulosa, lichen myxoedematosus) associated with Waldenström's macroglobulinaemia ... 143
Xanthoma annulare migrans ... 149
Disseminated small-spotted necrobiosis maculosa ... 153
Angiokeratoma corporis diffusum Fabry (glycolipid lipidosis) ... 157
Hand-Schüller-Christian disease ... 163
Hartnup's syndrome—successfully treated with nicotinamide ... 167
Erythropoietic protoporphyria with "hyalinosis cutis" ... 171

Nevoendotelioxantoma macronodular con participación pulmonar ...
Leucemia linfóide con participación cutánea ...

Dermatosis metabólicas ...
Escleromixedema de Arndt-Gottron ...
Mucinosis papulosa (mixedema papuloso quenoide) y macroglobulinemia de Waldenström ...
Xantoma anular migrante ...
Necrobiosis maculosa de pequeñas manchas seminadas ...
Angioqueratoma corporis diffusum de Fabry (lipidosis glucolípida) ...
Enfermedad de Hand-Schüller-Christian ...
Síndrome de Hartnup: éxito terapéutico con nicotinamida del ácido nicotínico...
Protoporfiria eritropoyética con «hialinosis cutánea» ...
