Foreword to First Edition	vii
Preface to First Edition	ix
Preface to Second Edition	x

CHAPTER I

Embryologic, Anatomic, and Physiologic Aspects

Embryology and Fetal Circulation	1
Normal Roentgenographic Anatomy	6
Physiologic Considerations in Congenital Heart Disease	10
Left-to-Right Shunting	10
Cyanosis, Right-to-Left Shunting, and Misdirection of Venous Blood Into the Aorta	10
Pulmonary Hypertension	12
Postnatal Pulmonary Vascular and Right Ventricular Involution	13

CHAPTER II

A Scheme for Roentgenographic Interpretation

Introduction	15
Basic Pulmonary Vascular Patterns	16
Increased Pulmonary Vascularity	16
Combined Active and Passive Congestion	19
Decreased Pulmonary Vascularity	19
Normal Pulmonary Vascularity	20
Miscellaneous Pulmonary Vascular Patterns	21
Unequal Pulmonary Blood Flow	21
Pulmonary Hypertension	22
Pulmonary Artery	23
Aorta	24
Heart Size	28
Specific Chamber Enlargement	29
Right Atrium	30
Right Ventricle	31
Left Atrium	32
Left Ventricle	33
Ancillary Findings	38
Bilateral Rib Notching	38
Bone Changes	38
Premature Sternal Fusion	40
Intracardiac, Vascular, and Valvular Calcifications	41
Aeration Disturbances	41
Generalized Overaeration	41
Miscellaneous Ancillary Findings	44

CHAPTER III

Classification Based on Pulmonary Vascular Patterns

Increased Pulmonary Vascularity	47
Increased Pulmonary Vascularity Without Cyanosis	47
Atrial Septal Defect	47
Foramen Secundum and Sinus Venosus Defect	47
Ostium Primum Defect (Endocardial Cushion Defect Complex)	55
Ventricular Septal Defect	62
Left Ventricular to Right Atrial Shunt	74
Patent Ductus Arteriosus	74
Miscellaneous Left-to-Right Shunts	77
Aortic Pulmonary Window (A-P Window)	77
Ruptured Aortic Sinus Aneurysm	81
Coronary Artery Fistula	81
Partial Anomalous Pulmonary Venous Return	85
Left Atrium—Left Superior Vena Cava Shunt	85
Increased Pulmonary Vascularity with Cyanosis	89
Total Anomalous Pulmonary Venous Return	89
Pulmonary Vein Atresia	100
Persistent Truncus Arteriosus	100
Transpositions of the Great Vessels	114
Complete Transposition of the Great Vessels	115
Taussig-Bing Anomaly, Incomplete Transposition, or Double Outlet Right Ventricle Type II	118
Classic Double Outlet Right Ventricle (Type I)	125
Corrected Transposition of the Great Vessels	125
Single Ventricle or Cor Triloculare Biatritium	129
Decreased Pulmonary Vascularity	134
Tetralogy of Fallot	134
Hypoplastic Right Heart Syndrome	147
Tricuspid Atresia	147
Tricuspid Stenosis	154
Pulmonary Atresia	154
Isolated Hypoplasia of the Right Ventricle	155
Ebstein's Anomaly	155
Uhl's Disease	158
Pulmonary Stenosis	160
Pulmonary Stenosis with Intact Ventricular Septum and Right-to-Left Atrial Shunt (Trilogy of Fallot)	162
Supravalvular Pulmonary Stenosis	163
Subvalvular or Infundibular Pulmonary Stenosis	163
Unilateral Absent Pulmonary Artery	165
Insufficiency of the Right Side Cardiac Valves	165
Congenital Tricuspid Insufficiency	166
Congenital Pulmonary Valve Insufficiency	166
Normal Pulmonary Vascularity (Unless Failure is Present)	168
Aortic Stenosis	170
Aortic Insufficiency	174

Coarctation of the Aorta	177
Interrupted Aortic Arch	180
Pseudocoarctation of the Aorta	180
Hypoplastic Left Heart Syndrome	183
Congenital Mitral Stenosis	188
Congenital Mitral Insufficiency	189
Cor Triatriatum	189
Endocardial Fibroelastosis	189
Aberrant or Anomalous Left Coronary Artery	191
The Cardiomyopathies	193

CHAPTER IV

Cardiac Malpositions, Miscellaneous Cardiac and Vascular Anomalies, and Special Problems in Neonates and Adults

Cardiac Malpositions	199
Dextrocardia, Dextroversion, and Mesoverision	199
Situs Inversus with Isolated Levocardia	202
Vascular Rings and Other Arterial Anomalies	205
Vascular Anomalies That Produce No Symptoms	207
Anomalous or Aberrant Right Subclavian Artery	207
Right Aortic Arch with Right Descending Aorta and Mirror-Image Branching	207
Right Aortic Arch with Right Descending Aorta and Aberrant Left Subclavian Artery	208
Right Aortic Arch with Left Descending Aorta	209
Left Aortic Arch with Right Descending Aorta	210
Vascular Anomalies That Produce Symptoms	210
Double Aortic Arch	210
Right Aortic Arch, Right Descending Aorta, Aberrant Left Subclavian Artery, and Left Ductus Arteriosus	211
Other Vascular Rings	212
Isolated Left Subclavian Artery	213
Anomalous Innominate Artery and Anomalous Left Common Carotid Artery	214
Vascular Sling—Aberrant Left Pulmonary Artery	221
Miscellaneous Aortic Anomalies	225
Cervical Aortic Arch	225
Circumflex Aorta	225
Hypoplastic Pulmonary Artery and Ipsilateral Lung	227
Congenital Pericardial Defect	232
Superior and Inferior Vena Cava Abnormalities	234
Pulmonary Arteriovenous Fistulae and Varices	236
Aortico—Left Ventricular Tunnel	239
Congenital Heart Disease in the Newborn Infant	239
Congenital Heart Disease in Adults	243

CHAPTER V

Illustrative Cases

Case 1	245
Case 2	245

Contents

Case 3	248
Case 4	249
Case 5	253
Case 6	254
Case 7	255
Case 8	257
Case 9	258
Case 10	259
