Preface	xiii
Acknowledgments	xv
1. Procedure for Identification and Management of Anorectal Anomalies in the Newborn Infant E. Durham Smith, Jotaro Yokoyama, and M. Saeki	1
2. Historical Update Pieter A. de Vries	11
3. High, Intermediate, and Low Anomalies in the Male E. Durham Smith and F. Douglas Stephens	17
4. High, Intermediate, and Low Anomalies in the Female Pieter A. de Vries	73
5. Rectal Ectasia: Primary and Secondary Associated With Anorectal Anomalies F. Douglas Stephens	99
6. Anorectal Atresia T. Dorairajan	105
7. The Cloaca in the Newborn John G. Raffensperger	111
8. Anatomy and Function of the Normal Rectum and Anus Alexander M. Holschneider and Neill V. Freeman	125
9. Potential Anatomic Sphincters of Anorectal Malformations in Males F. Douglas Stephens	155
10. Potential Anatomical Sphincters of Anorectal Malformations in Females Alberto Peña	163
11. Embryology of the Cloaca and Embryogenesis of Anorectal Malformations F. Douglas Stephens	177

12. Classification		
E. Durham Smith		211
13. Tabulation of Rare Malformations		
E. Durham Smith		223
14. Incidence, Frequency of Types, and Etiology of Anorectal Malformations		
E. Durham Smith		231
15. Diagnosis and Investigations		
E. Durham Smith and Sidney Cywes		247
16. Operative Management of Low Anomalies in the Male: Translevator Lesions		
E. Durham Smith		301
17. Operative Management of Low Anomalies in the Female		
Harold H. Nixon		309
18. Operative Management of High and Intermediate Anomalies in Males		
Pieter A. de Vries, T. Dorairajan, Frank M. Guttman, Peter K. Kottmeier, Nicolas Martin del Campo, H.H. Nixon, Alberto Peña, E. Durham Smith, F. Douglas Stephens, and Jotaro Yokoyama		317
19. Surgical Treatment of Female Anorectal Malformations		
Alberto Peña		403
20. Function of the Sphincters in Anorectal Malformations and Postoperative Evaluation		
Alexander M. Holschneider		425
21. Operations to Improve Continence After Previous Surgery		
E. Durham Smith, F. Douglas Stephens, Alexander M. Holschneider, H.H. Nixon, and Alberto Peña		447
22. Results of Treatment and Their Assessment		
Pieter A. de Vries		481
23. Associated Anomalies		
E. Durham Smith and Morihiko Saeki		501
24. Duplication and Vesicointestinal Fissure		
E. Durham Smith and F. Douglas Stephens		551
25. Wingspread Anomalies, Rarities, and Super Rarities of the Anorectum and Cloaca		
F. Douglas Stephens		581
Index		587
