

CONTENTS

SECTION ONE GENERAL INTRODUCTION..... 1

1. AN INTRODUCTION TO THE STUDY OF MICROORGANISMS 4
2. GENERAL CLASSIFICATION OF MICROORGANISMS; THE CELL AND CELL STRUCTURES..... 16
3. CHARACTERISTICS OF ALGAE, PROTOZOA, YEASTS, MOLDS, AND HELMINTHS 33
4. CHARACTERISTICS AND TYPES OF BACTERIA..... 50
5. CHARACTERISTICS OF RICKETTSIAS AND CHLAMYDIAS..... 69
6. CHARACTERISTICS OF THE VIRUSES 75

SECTION TWO MICROORGANISMS AND THE WORLD AT LARGE..... 95

7. GENERAL BACTERIAL PHYSIOLOGY 96
8. PHYSIOLOGY OF MICROORGANISMS IN THEIR ENVIRONMENT..... 117
9. LABORATORY STUDY OF MICROORGANISMS..... 133
10. MICROORGANISMS IN OUR ECOLOGICAL SYSTEM 157

SECTION THREE DESTRUCTION, REMOVAL, AND INHIBITION OF MICROORGANISMS 181

11. DEFINITIONS AND BASIC PRINCIPLES..... 182
12. STERILIZATION BY HEAT, RADIATION, CHEMICALS, AND FILTRATION..... 195

13. DISINFECTION.....	212
14. CHEMOTHERAPY AND ANTIBIOTICS.....	223
15. STERILIZATION AND DISINFECTION IN HEALTH CARE.....	238
SECTION FOUR INFECTION, IMMUNITY, AND ALLERGY	253
16. COMPONENTS OF NORMAL BLOOD AND THEIR ROLE IN MICROBIOLOGY	254
17. THE BLOOD IN RELATION TO INFECTIONS.....	269
18. NONSPECIFIC RESISTANCE TO INFECTION.....	275
19. SPECIFIC RESISTANCE TO INFECTION	284
20. ACTIVE AND PASSIVE IMMUNITY.....	297
21. ALLERGY.....	310
SECTION FIVE PATHOGENIC MICROORGANISMS	321
22. FACTORS IN TRANSMISSION OF COMMUNICABLE DISEASES.....	323
PART A PATHOGENS TRANSMITTED FROM THE INTESTINAL AND/OR URINARY TRACTS.....	328
23. SALMONELLOSIS, SHIGELLOSIS AND CHOLERA	328
24. BRUCELLOSIS AND LEPTOSPIROSIS.....	352
25. ENTERIC VIRAL INFECTIONS.....	360
26. INTESTINAL PROTOZOA AND HELMINTHS.....	373
27. FOODS AS VECTORS OF INFECTION AND POISONING; SANITATION IN FOOD HANDLING	383
PART B PATHOGENS TRANSMITTED FROM THE RESPIRATORY TRACT	398
28. STAPHYLOCOCCAL, DIPLOCOCCAL, AND STREPTOCOCCAL INFECTIONS.....	398
29. DIPHTHERIA.....	419
30. LARYNGOTRACHEITIS, CONJUNCTIVITIS, WHOOPING COUGH, AND "TRENCH MOUTH".....	431
31. TUBERCULOSIS AND HANSEN'S DISEASE.....	438
32. RESPIRATORY VIRAL, MYCOPLASMAL, AND CHLAMYDIAL INFECTIONS.....	458
PART C SOME PATHOGENS TRANSMITTED FROM THE GENITAL TRACT.....	477
33. TRACHOMA, INCLUSION CONJUNCTIVITIS, THE VENEREAL GRANULOMATOSES	477
34. THE TREPONEMATOSES.....	481

35. GONORRHEA, CHANCROID, TRICHOMONIASIS, VENEREAL HERPES, PREVENTION OF VENEREAL DISEASES.....	496
PART D PATHOGENS FROM THE SOIL.....	506
36. BACTERIAL PATHOGENS OF THE SOIL: GAS GANGRENE, TETANUS, ANTHRAX, AND MELIOIDOSIS	506
37. THE MYCOSES	515
PART E PATHOGENS TRANSMITTED IN BLOOD.....	528
38. SECONDARY AND ACCIDENTAL INFECTIONS, ARTHROPOD-BORNE BACTERIAL INFECTIONS.....	528
39. ARTHROPOD-BORNE RICKETTSIAL AND VIRAL INFECTIONS.....	540
40. ARTHROPOD-BORNE PROTOZOAL AND HELMINTHIC DISEASES	552
PART F TECHNICAL RESPONSIBILITIES IN TRANSMISSIBLE DISEASES	565
41. ALLIED HEALTH PERSONNEL, ASSISTANTS TO THE PHYSICIAN	565
<i>APPENDIX A</i> SYSTEM OF CLASSIFICATION OF BACTERIA	579
<i>APPENDIX B</i> CLASSIFICATION OF REPRESENTATIVE VIRUSES.....	586
<i>APPENDIX C</i> STERILIZATION CHARTS	588
<i>APPENDIX D</i> PORTALS OF EXIT AND TYPES OF PATHOGENS USUALLY ASSOCIATED WITH THEM.....	597
<i>APPENDIX E</i> SOME FILMS AND FILMSTRIPS USEFUL IN TEACHING MICROBIOLOGY FOR HEALTH PERSONNEL.....	599
INDEX	635
