Ivo J. Carré

2 Disorders of the oro-pharynx and oesophagus 33
Ivo J. Carré

3 The stomach
Part I: Normal anatomy and physiology 81
Part II: Disorders of the stomach 92
John A. Dodge

4 Normal digestive and absorptive functions of the small intestine 125
Valerie Burke and Charlotte M. Anderson

5 The child with abnormal stools. Classification and general clinical and diagnostic approach 167
Charlotte M. Anderson

6 Coeliac disease 175
Charlotte M. Anderson and Valerie Burke

7 Disorders of carbohydrate digestion and absorption 199
Charlotte M. Anderson and Valerie Burke

8 Other disorders of the small intestine associated with malabsorption 219
Charlotte M. Anderson and Valerie Burke

9 The exocrine pancreas 289
Béat Hadorn

10 Cystic fibrosis 329
Michael Gracey

11 The liver and biliary system 361
Ranjit K. Chandra

12 Bile and bacteria
Part I: Bile acid metabolism 387
Gerard Murphy
Part II: Bacterial flora of the upper gastrointestinal tract 397
Valerie Burke and Charlotte M. Anderson

13 Chronic inflammatory disorders
Part I: Crohn's disease 411
Part II: Ulcerative colitis 431
Part III: Tuberculosis 453
Part IV: Amoebiasis 456
Nicholas H. Dyer

14 Other disorders of the large intestine 469
Valerie Burke and Charlotte M. Anderson

15 Medical aspects of surgery of the gastrointestinal tract 491
Michael Gracey

16 Radiology of the gastrointestinal tract 499
Roy Astley

17 Gastroenterological problems in children of developing countries 569
Brian A. Wharton

18 Nutrition: normal requirements and dietary therapy 611
Michael Gracey and Charlotte M. Anderson

19 Investigation of gastrointestinal function
Part I: Some clinical and technical procedures 633
Part II: Appendix of methodology 652
Valerie Burke and Charlotte M. Anderson
