

# CONTENTS

## Part 1: Bones and Joints

1. Congenital Skeletal Disorders: Skeletal Dysplasias, Chromosomal Disorders <i>Philip Jacobs</i>	2
2. Bone Infections; Tuberculosis; Syphilis; Sarcoid <i>Philip Jacobs</i>	36
3. Avascular Necrosis of Bone; Osteochondritis; Miscellaneous Bone Lesions <i>Philip Jacobs</i>	54
4. Diseases of Joints; Arthrography <i>Philip Jacobs</i>	67
5. Tumours and Tumourlike Lesions of Bone (1) <i>R. O. Murray</i>	86
6. Tumours and Tumourlike Lesions of Bone (2) <i>R. O. Murray</i>	110
7. The Reticuloses and Other Haemopoietic Disorders <i>R. O. Murray</i>	128
8. Skeletal Disorders of Metabolic and Endocrine Origin <i>D. J. Stoker</i>	155
9. Skeletal Trauma—General Considerations <i>R. O. Murray</i>	184
10. Skeletal Trauma—Regional <i>R. O. Murray</i>	210

## Part 2: The Chest

11. The Normal Chest: Techniques <i>J. W. Pierce and R. G. Grainger</i>	234
12. The Chest Wall, Diaphragm and Pleura <i>R. G. Grainger and J. W. Pierce</i>	263

13. Patterns of Collapse and Consolidation <i>R. G. Grainger and J. W. Pierce</i>	291
14. Inflammatory Diseases of the Lung <i>J. W. Pierce and R. G. Grainger</i>	299
15. Chronic Bronchitis and Emphysema; Industrial Diseases <i>J. W. Pierce and R. G. Grainger</i>	330
16. Tumours of Lung <i>R. G. Grainger and J. W. Pierce</i>	346
17. Pulmonary Diseases of Unknown Aetiology. Pulmonary Diseases with an Immunological Basis. Collagen Diseases <i>R. G. Grainger and J. W. Pierce</i>	368
18. Mediastinal Lesions <i>R. G. Grainger and J. W. Pierce</i>	390
19. Chest Trauma; Irradiation; The Post-Operative Chest <i>R. G. Grainger and J. W. Pierce</i>	404
20. The Chest in Children: Congenital Abnormalities <i>R. G. Grainger and J. W. Pierce</i>	416
21. Some Differential Diagnoses <i>R. G. Grainger and J. W. Pierce</i>	425
<b>Part 3: The Cardiovascular System</b>	
22. The Heart: Techniques and Normal Appearances <i>R. E. Steiner</i>	446
23. Radiology of the Pulmonary Circulation <i>R. E. Steiner</i>	460
24. The Pericardium <i>R. E. Steiner</i>	478
25. Acquired Heart Disease <i>R. E. Steiner</i>	484

<b>26. The Embryology and Anatomy of the Heart</b>	505	<b>44. Renal Vascular Disease: Miscellaneous Lesions</b>	883
<i>John Dow and Michael Pearson</i>		<i>David Edwards</i>	
<b>27. Congenital Heart Disease (1)</b>	529	<b>45. The Bladder and Prostate</b>	900
<i>John Dow and Michael Pearson</i>		<i>David Edwards</i>	
<b>28. Congenital Heart Disease (2)</b>	546	<b>46. Lower Urinary Tract Obstruction; Stress Incontinence</b>	908
<i>John Dow and Michael Pearson</i>		<i>David Edwards</i>	
<b>29. Arteriography</b>	595	<b>47. Obstetric Radiology</b>	918
<i>David Sutton</i>		<i>J. H. Highman</i>	
<b>30. Phlebography</b>	628	<b>48. Gynaecological Radiology</b>	939
<i>David Sutton</i>		<i>J. H. Highman</i>	
<b>31. Lymphangiography</b>	641		
<i>J. O. M. C. Craig</i>			
<b>Part 4: The Gastro-intestinal Tract and Abdomen</b>			
<b>32. The Salivary Glands, Pharynx and Oesophagus</b>	656	<b>49. The Pharynx and Larynx</b>	954
<i>Eric Samuel</i>		<i>Eric Samuel</i>	
<b>33. The Stomach and Duodenum</b>	681	<b>50. The Paranasal Sinuses</b>	966
<i>Eric Samuel and J. W. Laws</i>		<i>Eric Samuel</i>	
<b>34. The Small Bowel</b>	713	<b>51. The Temporal Bone</b>	977
<i>J. W. Laws</i>		<i>Eric Samuel</i>	
<b>35. The Colon</b>	741	<b>52. The Orbit and Eye</b>	990
<i>Eric Samuel and J. W. Laws</i>		<i>Glyn Lloyd</i>	
<b>36. The Acute Abdomen</b>	759	<b>53. Teeth</b>	1012
<i>Eric Samuel and J. W. Laws</i>		<i>Frank Ingram</i>	
<b>37. The Biliary Tract, Pancreas, Liver and Spleen</b>	776	<b>54. The Soft Tissues</b>	1026
<i>C. G. Whiteside</i>		<i>F. Starer</i>	
<b>38. The Adrenal Glands</b>	808	<b>55. Mammography</b>	1047
<i>David Sutton</i>		<i>Huw Gravelle</i>	
<b>Part 5: The Urogenital Tracts</b>			
<b>39. The Urinary Tract: Methods of Examination</b>	826	<b>Part 6: E.N.T.; Eyes; Teeth; Soft Tissues</b>	
<i>David Edwards</i>			
<b>40. Congenital Lesions</b>	839	<b>49. The Pharynx and Larynx</b>	954
<i>David Edwards</i>		<i>Eric Samuel</i>	
<b>41. Tumours of the Kidney and Ureter; Cystic Disease of the Kidney</b>	852	<b>50. The Paranasal Sinuses</b>	966
<i>David Edwards</i>		<i>Eric Samuel</i>	
<b>42. Renal Calculi: Nephrocalcinosis</b>	867	<b>51. The Temporal Bone</b>	977
<i>David Edwards</i>		<i>Eric Samuel</i>	
<b>43. Urinary Infection</b>	871	<b>52. The Orbit and Eye</b>	990
<i>David Edwards</i>		<i>Glyn Lloyd</i>	
<b>Part 7: The Central Nervous System</b>			
<b>56. Pathology and Methods of Examination</b>	1062	<b>53. Teeth</b>	1012
<i>David Sutton</i>		<i>Frank Ingram</i>	
<b>57. The Normal Skull</b>	1075	<b>54. The Soft Tissues</b>	1026
<i>David Sutton</i>		<i>F. Starer</i>	
<b>58. The Abnormal Skull</b>	1087	<b>55. Mammography</b>	1047
<i>David Sutton</i>		<i>Huw Gravelle</i>	
<b>59. The Spine and Myelography</b>	1116		
<i>Norman Lewtas</i>			
<b>60. Encephalography and Ventriculography</b>	1149		
<i>Norman Lewtas</i>			
<b>61. Angiography in Neuroradiology (1)</b>	1177		
<i>David Sutton</i>			
<b>62. Angiography in Neuroradiology (2)</b>	1199		

<b>Part 8: Imaging</b>		
63. C.T. Scanning—CNS 1 <i>Ivan Moseley and David Sutton</i>	1230	
64. C.T. Scanning—CNS 2 <i>Ivan Moseley and David Sutton</i>	1252	
65. C.T. Scanning—The Body <i>Ian Isherwood and W. St C. Forbes</i>	1266	
66. Radioisotope Imaging <i>E. Rhys Davies</i>	1308	
67. Ultrasound (1) Principles: General: Cardiac <i>Frank Ross</i>	1339	
		<b>68. Ultrasound (2) Obstetrics and Gynaecology 1370</b>
		<i>Frank Ross and J. H. Highman</i>
		<b>Appendices</b>
		Appendix A. Centres of Ossification 1400
		Appendix B. Contrast Media 1403
		Appendix C. Vascular Rings and Anomalies of the Aortic Arch 1408
