	1	Introduction to Poliomyelitis	1
	2	Poliomyelitis in Developing Countries	4
	3	History of Poliomyelitis	10
<u>GENERAL ASPECTS</u>	4	Virology	12
	5	Epidemiology	14
	6	Pathology	20
	7	Causation of Deformities	26
	8	Organisation of Polio Clinics	34
	9	Training	38
<u>PROPHYLAXIS</u>	10	Prophylactic Immunisation	42
	11	General Prophylaxis	48
<u>DIAGNOSIS</u>	12	Clinical Diagnosis	52
	13	Muscle Charting	62
	14	Measurement of Deformity	67
	15	X-Ray Changes in Polio	77
	16	Laboratory Diagnosis	84
	17	Differential Diagnosis	86
<u>GENERAL TREATMENT</u>	18	Nursing	90
	19	Respiratory and Bulbar Polio	94
	20	Physiotherapy	102
	21	Mobilisation of Patients	108
<u>MANAGEMENT OF DEFORMITIES</u>	22	Contractures - Conservative Management	117
	23	Hip and Knee Contractures	125
	24	Ankle and Foot Deformities	142
	25	Management of Shortening	152
<u>SPECIFIC TREATMENT</u>	26	Spine	154
	27	Upper Limb Weakness	158
	28	Extensive Paralysis	164
	29	Complications	170
	30	Research in Polio	176
<u>APPLIANCES</u>	31	Appliances for Paralysis	179
<u>REHABILITATION</u>	32	Rehabilitation	238
	33	Advice for Patients	267
	34	The Future	276
