

CONTENTS

1. PHYSIOLOGY OF REPRODUCTION 1	Bony Pelvis—Brim 61
Ovulation and Menstruation ... 2-4	Bony Pelvis—Cavity 62
Fertilization and Nidation 5	Bony Pelvis—Outlet 63
Hormonal Relationships in	Pelvic Types 64, 65
Early Pregnancy 6, 7	Fetal Skull 66, 67
Development of the Embryo... 8-11	4. DIAGNOSIS OF PREGNANCY 69
Development of the Fetus—	Symptoms and Signs of Preg-
Circulation 12	nancy 71
Development of the Organs—	Immunological Tests for Preg-
Timetable 13	nancy 72
Ossification Centres 13	Symptoms and Signs ... 73-78
Placenta—Development 14, 15	Pigmentation in Pregnancy ... 79
Placenta—Development of	5. ANTENATAL CARE 81
Cord 16	Antenatal Care 82
Placenta—Functions ... 17, 18	The First Visit 83
Development of Membranes ... 19	The Obstetric History ... 84
Amniotic Fluid 20, 21	The First Examination ... 85
2. MATERNAL PHYSIOLOGY ... 23	Antenatal Examinations ... 86
Weight increase 25	Vaginal Examination 87
Metabolism 26, 27	Position of the Fetus 88
Carbohydrate Metabolism 28, 29	Abdominal Palpation ... 89-92
Protein Metabolism ... 30, 31	Diet in Pregnancy 93
Fat Metabolism 32, 33	General Health 94
Respiratory Changes ... 34, 35	Care of the Breasts 95
Cation Changes 36	Exercise and Relaxation ... 96
Cardiovascular System 37, 38	Minor Complaints 97
Blood Volume Changes ... 39	Pelvic Joint Pains 98
Cardiac Changes 40, 41	Neuropathy in Pregnancy 99, 100
Blood Values 42-44	Vaginal Discharge 101
Gastro-Intestinal Tract ... 45	X-Ray Pelvimetry 102
Renal System 46, 47	Antenatal Care—Summary ... 103
Endocrine System 48	6. SYSTEMIC DISEASES IN PREG-
3. OBSTETRICAL ANATOMY ... 49	NANCY 105
Pelvic Organs 50	Cardiac Disease ... 106-112
Vulva 51	Anaemia 113
Pelvic Floor 52, 53	Iron Deficiency Anaemia 114-117
Ischio-rectal Fossa ... 54, 55	Folic Acid Deficiency ... 118-120
Perineum 56	Puerperal Anaemia 121
Pelvic Blood Supply 57	Diabetes 122-128
Pelvic Sympathetic Nerves ... 58	Urinary Tract Infection 129-133
Supports of Uterus 59	Jaundice 134-136
Bony Pelvis—Sagittal View ... 60	Hyperthyroidism ... 137, 138

Respiratory Diseases	139	Management—Progress ...	206
Venereal Diseases	140	Management—Delivery	207, 208
Acute Abdominal Conditions		Management—Third Stage	209-211
in Pregnancy... ..	141	Management—Patient Care ...	212
		Management—	
7. DISEASES OF PREGNANCY ...	143	Delivery Room ...	213, 214
Rhesus Incompatibility	145-158	Sedatives and Hypnotics in	
Prevention of Rhesus Haemo-		Labour	215
lytic Disease	159	Analgesic Drugs in Labour ...	216
Rhesus Incompatibility ...	160	Induction of Labour—Amnio-	
Vomiting in Pregnancy	161, 162	tomy	217
Hypertension in Pregnancy ...	163	Amniotomy—Complications ...	218
Pre-Eclampsia	164, 165	Control of Labour—Oxytocin	219
Early Diagnosis of Pre-		Oxytocin—Complications ...	220
Eclampsia	166	Induction—Ripening of Cervix	221
Treatment of Pre-Eclampsia	167, 168	Active Management of Labour	222
Eclampsia	169-171	Partograms in Management of	
Hypertension in Early Preg-		Labour	223
nancy	172	Other Methods of Induction ...	224
8. MONITORING THE FETUS—		10. MALPOSITION AND MAL-	
AND PLACENTA	173	PRESENTATION	225
Monitoring the Fetus and		Malposition and Malpresenta-	
Placenta	174	tion	227
Daily Fetal Movement Counts	175	Uterine Action... ..	228
Ultrasound in Obstetrics	176-178	Abnormal Uterine Action ...	229
Assessment of Maturity by		Diagnosis of	
Ultrasound	179	Malpresentation ...	230, 231
Fetal Heart Monitoring	180-183	Occipito-Posterior Position	232, 233
Fetal Blood Sampling in Labour	184	O.P. Position—Mechanism	234, 235
Amniotic Lecithin	185	O.P. Position—Management	236, 237
Fetal Breathing: Fetoscopy ...	186	Breech Presentation—	
Total Intrapartum Monitoring	187	Mechanism	238-240
Screening for Neural Tube		Breech Presentation—	
Defects (NTD) ...	188, 189	Management	241-247
Oestriol Excretion	190, 191	Version	248, 249
Placental Lactogens	192	Breech Presentation—	
		Risks to Fetus	250
9. NORMAL LABOUR	193	Face Presentation	251
Normal Mechanism	194-197	Face Presentation—	
Soft Tissue Changes	198	Mechanism	252-254
Formation of Lower Uterine		Face Presentation—	
Segment	199	Management and	
Changes in Birth Canal in		Delivery	255, 256
Labour	200, 201	Brow Presentation	257
Diagnosis of Labour	202-204	Brow Presentation—	
Vaginal Examination in Labour	205	Mechanism	258

Brow Presentation—			
Management	259		
Compound Presentation	260		
Parietal Presentation	261		
Parietal Presentation—			
Mechanism	262		
Shoulder Presentation—			
Mechanism	263-265		
Multiple Pregnancy	266-272		
Prolapse and Presentation of			
the Cord	273		
Treatment of Prolapsed Cord	274		
Contracted Pelvis	275-279		
Polyhydramnios	280-282		
Unstable Lie	283		
Elderly Primigravida	284, 285		
Grand Multiparity	286, 287		
11. UTERINE DISPLACEMENTS			
AND ANOMALIES	289		
Retroverted Gravid Uterus	290, 291		
Other Uterine Displace-			
ments	292, 293		
Congenital Abnormalities	294-296		
Tumours Complicating Preg-			
nancy	297-299		
12. ABNORMALITIES OF THIRD			
STAGE OF LABOUR AND OF			
PLACENTA AND CORD	301		
Retained Placenta	302-304		
Postpartum Haemorrhage			
(PPH)	305		
Postpartum Haemorrhage—			
Treatment	306, 307		
Abnormalities of the Placenta	308, 309		
Abnormalities of the Cord	310		
13. THE PUERPERIUM	311		
The Puerperium	312		
Physiological Changes	313, 314		
Clinical Aspects	315		
Lactation and Breast Feeding	316, 317		
Some Common Complications	318		
Postnatal Examination	319-321		
Postnatal Exercises	322		
14. MATERNAL INJURIES AND			
PUERPERAL INFECTION	323		
Perineal Damage	324, 325		
Perineal Damage—Repair	326, 327		
Injuries to the Vulva	328		
Injuries to the Vagina—Tears	329		
Injuries to the Vagina—			
Fistulae	330		
Repair of Fistulae	331		
Injuries to the Cervix	332		
Rupture of the Uterus	333-335		
Acute Inversion of the			
Uterus	336-338		
Haematoma of the Rectus			
Sheath	339		
Traumatic Neuritis (Syn.			
Obstetric Palsy)	340		
Traumatic Neuritis	341		
Puerperal Infection	342, 343		
Puerperal Infection—			
Endometritis	344		
Puerperal Infection—			
Parametritis	345		
Puerperal Infection—			
Peritonitis and Salpingitis	346		
Thrombosis in Pregnancy	347, 348		
Diagnosis of Venous			
Thrombosis	349		
Thrombosis—			
Clinical Features	350, 351		
Thrombosis—			
Treatment	352		
Prophylaxis against Throm-			
bosis	353		
Systemic Spread of Throm-			
bosis	354		
Enlargement of Breasts	355		
Breast Infection	356, 357		
Puerperal Urinary Infection	358		
Septic Shock	359, 360		
Monitoring CVP	361		
Mental Illness in the Puer-			
perium	362		
15. THE NEWBORN BABY	363		
The Newborn Baby	364		
Management of the Newborn			

Baby	365, 366	Diagnosis	427-429
Inspection for Congenital Defects	367	Tubal Pregnancy—Treatment	430
Routine Protective Tests ...	368	Abdominal Pregnancy	431
Screening for Phenylketonuria	369	Abortion	432-435
Nursing Care	370	Abortion—Differential Diag-	
Breast Feeding	371-374	nosis	436
Advantages of Breast Milk ...	375	Abortion—Treatment... ..	437, 438
Drugs in Breast Milk	376	Missed Abortion	439, 440
Artificial Feeding	377, 378	Habitual Abortion	441, 442
Physiology of the Newborn		Therapeutic Abortion... ..	443-445
Baby	379, 380	Medical Induction of Abor-	
Charted Observations	381	tion	446, 447
Apnoea Neonatorum	382, 383	Technique of PGE2 Abortion	448
Secondary Apnoea	384	Placenta Praevia (PP)	449-451
Apnoea—Resuscitation	385	Placental Localization	452
Heat Loss in the Newborn	386	Abruptio Placentae (Acci-	
Low Birthweight Babies	387	dental Haemorrhage)	453
Estimation of Gestational Age	388	Abruptio Placentae	454-456
Prevention of Pre-Term		Coagulation Failure in Preg-	
Labour	389, 390	nancy	457-460
Respiratory Distress Syn-		Hydatidiform Mole	461-464
drome (RDS)	391-393	Invasive Mole	465
Jaundice in the Newborn	394	Choriocarcinoma	466
Moulding of the Head... ..	395	Treatment of Choriocarcinoma	467
Intracranial Haemorrhage	396-398	Carcinoma of the Cervix in	
Birth Injuries	399-402	Pregnancy	468
Congenital Defects	403-405	17. OBSTETRICAL OPERATIONS ...	470
Chromosomal Abnormalities... ..	406	Obstetric Operations	471
Congenital Defects	407	Episiotomy	472, 473
Rubella in Pregnancy	408	Obstetric Forceps	474-477
Congenital Defects	409-413	Use of Obstetric Forceps	478
Hydrocephalus	414, 415	Use of Anaesthesia for Forceps	
Effects of Drugs on the Fetus	416-418	Delivery	479
16. VAGINAL BLEEDING IN PREG-		Low Forceps Delivery... ..	480
NANCY	419	Mid Forceps Delivery	481
Vaginal Bleeding in Pregnancy	420	Delivery with Kielland's For-	
Ectopic Pregnancy	421	ceps	482-484
Tubal Pregnancy—Aetiology	422	Other Applications of Forceps	485
Tubal Pregnancy—Implantation	423	Complications of Forceps Deli-	
Tubal Pregnancy—Termination	424	very	486
Tubal Pregnancy—Effect on		Vacuum Extractor	487, 488
Uterus	425	Symphysiotomy	489
Tubal Pregnancy—Symptoms		Caesarean Section	490
and Signs	426	Technique of Classical Section	491
Tubal Pregnancy—Differential		Technique of Lower Segment	
		Section	492

Complications of Caesarean Section	493	Fetal Mortality	509-511
Destructive Operations	494-496	19. CONTRACEPTION	513
Sterilisation	497	Oral Contraception	514-518
Spinal Anaesthesia	498	Contraception by the Intra-Uterine Device (IUD)	519
Epidural Anaesthesia	499	Intra-Uterine Devices (IUD)	520
Anaesthesia in Labour	500	The Vaginal Diaphragm	521
		Vaginal Spermicides	522
18. MATERNAL AND FETAL MORTALITY	501	Contraception in the Male	523
Maternal Mortality	502-508	Index	525
