# CONTENTS

<b>1. General Principles of Management</b>	<b>1</b>
Urgent Considerations	1
The History	2
The Physical Examination	3
Diagnostic Tests	8
Determination of the Site of Care	10
Emergency Room Atmosphere	11
Preparation of the Wound for Diagnosis and/or Treatment	13
Medication	17
Records and Instructions	18
<b>2. Anesthesia</b>	<b>19</b>
General Principles	19
Selection of the Anesthetic Agent	20
Other Upper Extremity Blocks	28

<b>3. Dressings and Splints</b>	<b>31</b>
General Principles	31
The Inside Dressing	32
The Outer Layer (Splint or Cast)	36
Splint Position	37
Application of Plaster or Fiberglass	38
The Finger Dressing	40
Finger Splints	42
Elevation of the Injured Hand	42
The Child's Hand Dressing	45
<b>4. Major Injuries Requiring Urgent Treatment</b>	<b>47</b>
Major Lacerations with Serious Hemorrhage	49
Amputations or Devascularization Injuries with Potentially Replantable Parts	51
Extensive Mangling Injuries	57
Compartment Syndromes	59
High Pressure Injection Injuries	64
<b>5. Major Injuries Requiring Early Treatment</b>	<b>67</b>
Burns	67
Chemical Burns	71
Electrical Injury	72

Cold Injury	73
Infections	74
Infections Usually Requiring Hospitalization	81
Flexor Tendon Injuries	86
Nerve Injuries	93
Bone and Joint Injuries	97
<b>6. Usually Less Severe Injuries</b>	<b>113</b>
Nail and Nailbed Injuries	113
Finger Pad Injuries	115
Foreign Bodies	119
Bites, Stings, and Scratches	120
Extensor Tendon Injuries	125
<b>7. Other Commonly Seen Problems</b>	<b>131</b>
Strains and Sprains of Finger Joints	131
Trigger Thumb and Fingers (Stenosing Tenosynovitis)	132
deQuervain's Stenosing Tenosynovitis	135
Ganglion Cyst	137
Dupuytren's Fasciitis and Contracture	139
Fractures of the Distal Phalanx	140
Nerve Entrapment Syndromes	140
The Arthritides	146

<b>8. The Role of Hand Therapy</b>	<b>151</b>
The Effects of Injury	151
Consequences of Edema	152
Preventing Nonfunction	153
<b>Suggested Readings</b>	<b>165</b>
<b>Index</b>	<b>169</b>
