Foreword	vii
Preface	ix
Background and acknowledgements	xi
Summary	xiii
1. Health, environment, and development	1
Introduction	1
The meaning of health	5
Health and the environment	6
Health and development	8
Balancing rights and responsibilities	13
References and notes	15
Appendix	17
2. Global challenges to health and the environment	20
Demographic issues	20
Population size	21
Mortality	23
Fertility	30
Migration and urbanization	31
Conclusions	37
Poverty	38
Deficiencies in the physical environment	40
Rural and urban poverty	44
Resource use	45
Macroeconomic policies	49
Structural adjustment and health	51
Structural adjustment and the environment	53
References and notes	56
3. Food and agriculture	60
Introduction	60
Food production	61
Food, diet, and health	65
Food contamination	69

Biological agents	70
Other toxic agents in food	75
Occupational hazards and accidents	77
Agricultural chemicals	79
Agricultural development	83
Land ownership or tenure	87
Impact of farming on water quality	89
Forestry	90
Additional problems for developing countries	91
Trends	91
Strategies	95
Recommendations	99
Recommendations for research	101
References and notes	102
4. Water	106
Introduction	106
Water and production	106
Maintaining water quality	110
Water quality in urban areas in developing countries	113
Communicable diseases associated with water	115
Water and sanitation	122
Changing disease patterns resulting from water management	127
Strategies	130
Recommendations	138
Recommendations for research	139
References and notes	141
5. Energy	145
Introduction	145
Energy use and health	146
Environmental and health effects of energy production and use	148
Fossil fuels and air pollution	148
Fossil fuels—other effects on health	157
Hydropower	158
Nuclear power	159
Electricity	159
Accidents	160
Additional problems in developing countries	161
Indoor pollution from fossil fuels	161
Indoor pollution from biomass fuels	162

Trends	164
Strategies	168
Recommendations	170
Recommendations for research	171
References and notes	172
6. Industry	175
Introduction	175
Industrial activities and their health hazards	177
Occupational exposure	177
Health risks to the public	179
Accidental releases	180
Toxic chemicals and hazardous waste disposal	180
Identifying the health impact	182
Additional problems in developing countries	185
Strategies	188
Recommendations	190
Recommendations for research	192
References and notes	195
7. Human settlements and urbanization	197
Introduction	197
Housing and basic services	198
Housing and health	199
Housing and health in developed countries	200
Housing and health in developing countries	201
Basic services	209
Health care	209
Education	211
Garbage collection and disposal	211
Road accidents	211
Noise	212
Community exposure	213
Occupational exposure	214
Settlements and psychosocial health problems	215
Health impact of urbanization in developing countries	217
Trends	219
Strategies	221
Recommendations	226
Recommendations for research	229
References and notes	230
8. Transboundary and international problems	235
Long-range transport of air pollutants	235

Transboundary movement of hazardous products and wastes	237
Stratospheric ozone depletion	239
Climatic change	240
Ocean pollution	244
Biodiversity	246
Strategies	246
Recommendations	248
Recommendations for research	249
References and notes	249
9. Strategies	251
Introduction	251
Global objectives	252
Principles	252
Strategic elements	253
Tools and methods	256
The macroeconomic basis for health	256
Cost-benefit analysis	257
Primary environmental care	257
References and notes	257
10. Recommendations	258
General recommendations	258
Sectoral recommendations	260
Food and agriculture	261
Water	261
Energy	262
Industry	262
Human settlements and urbanization	263
Transboundary and international problems	264
Recommendations for research	264
Principles guiding environmental health research	265
Development-related health research and interaction with environmental issues	265
General recommendations	267
Sectoral research recommendations	268
Annex 1. Members of the WHO Commission on Health and Environment	270
Annex 2. Members of Technical Panels	277
Annex 3. Members of the WHO Task Force of the WHO Commission on Health and Environment	282
