

# CONTENTS

## SECTION I

### LUNGS AND CHEST

PLATE NUMBER	PAGE NUMBER
1. Topographical and Radiological Anatomy .....	17
2. Azygos and Supernumerary Lobes .....	18
3. Pulmonary Vessels and Bronchi .....	19
4. Control of Respiration .....	20
5. Pneumothorax .....	21
6. Pneumococcal Lobar Pneumonia .....	22
7. Friedländer Pneumonia .....	23
8. Virus Infections of the Lungs .....	24
9. Oil Aspiration Pneumonia .....	25
10. Bronchopneumonia .....	26
11. Suppurative Bronchopneumonia .....	27
12. Putrid Abscess .....	28
13. Primary Infection with the Tubercle Bacillus .....	29
14. Hematogenous Tuberculosis .....	30
15. Nodular Tuberculosis .....	31
16. Caseous Pneumonic Tuberculosis .....	32
17. Fibroulcerative Tuberculosis .....	33
18. Fibroid Tuberculosis .....	34
19. The Collapsed Lung .....	35
20. Mycotic Diseases .....	36
21. Bronchostenosis .....	37
22. Bronchiectasis .....	38
23. Emphysema .....	39
24. Cystic Disease .....	40
25. Cancer of the Bronchus .....	41
26. Apical Cancer .....	42
27. Cancerous Abscess .....	43
28. Lymphangitic Cancer .....	44
29. Neoplasms of the Pleura .....	45
30. Metastatic Cancer .....	46
31. Hodgkin's Disease .....	47
32. Sarcoidosis .....	48
33. Pneumoconiosis (Anthracosis and Siderosis) .....	49
34. Pneumoconiosis (Silicosis and Asbestosis) .....	50
35. Pulmonary Arteriosclerosis .....	51
36. Pulmonary Infarction .....	52

### INJURIES TO THE CHEST

37. Simple Thoracic Cage Injuries .....	53
38. Complicated Thoracic Cage Injuries .....	54
39. Complicated Thoracic Cage Injuries (continued) .....	55
40. Hemothorax .....	56
41. Pneumothorax: Causes and Types .....	57
42. Emergency Treatment of Open and Tension Pneumothorax .....	58
43. Emphysema .....	59
44. Massive Collapse (Atelectasis) .....	60
45. Traumatic Asphyxia .....	61
46. Chylothorax .....	62
47. Blast Injury .....	63
48. Gunshot Wounds .....	64

## SECTION II

### GASTROINTESTINAL TRACT

PLATE NUMBER	THE ESOPHAGUS	PAGE NUMBER
1. Structures; Relations; Histology .....		6
2. Musculature .....		6
3. Arterial Supply .....		6
4. Nerves and Lymphatics .....		6
5. Congenital Anomalies .....		7
6. Thoracic Stomach; Benign Tumor; Foreign Bodies .....		7
7. Displacement .....		7
8. Carcinoma .....		7
9. Cardiospasm .....		7
10. Diverticula .....		7
11. Esophageal Varices .....		7
12. Esophagitis and Peptic Ulcer .....		7

### THE STOMACH

13. Relations and Normal Variations .....	7
14. Musculature .....	7
15. Arterial Supply .....	8
16. Venous Drainage .....	8
17. Nerve Supply .....	8
18. Lymphatic Drainage .....	8
19. Mucous Membrane .....	8
20. Gastritis; Superficial Erosions .....	8
21. Acute Gastric Ulcer .....	8
22. Subacute Gastric Ulcer .....	8
23. Chronic Gastric Ulcer .....	8
24. Hemorrhage and Acute Perforation of Gastric Ulcer .....	8
25. Healing of Gastric Ulcer .....	9
26. Malignant Ulceration .....	9
27. Adenocarcinoma .....	9
28. Scirrhous Carcinoma .....	9
29. Benign Tumors .....	9
30. Diverticulum and Herniation .....	9
31. Hypertrophic Pyloric Stenosis .....	9

### THE DUODENUM

32. Anatomy and Relations .....	9
33. Duodenal Bulb and Mucosal Surface .....	9
34. Duodenal Fossae and Ligament of Treitz .....	9
35. Structure .....	10
36. Blood Supply (Arteries and Veins) .....	10
37. Nerves and Lymphatics .....	10
38. Duodenitis and Duodenal Ulcer .....	10
39. Duodenal Ulcer Beyond the Bulb, Multiple Ulcers; Prestenotic Diverticula .....	10
40. Complications of Duodenal Ulcer .....	10
41. Diverticula .....	10
42. Benign Tumors; Atresia .....	10
43. Malignant Tumors .....	10

### THE SMALL INTESTINE

44. Topography and Relations .....	11
45. Ileo-Cecal Region .....	11
46. Structure .....	11

PLATE NUMBER	PAGE NUMBER
47. Histology .....	112
48. Arterial Supply .....	113
49. Venous Drainage .....	114
50. Lymphatic Drainage .....	115
51. Nerve Supply .....	116
52. Anomalies .....	117
53. Diverticula .....	118
54. Jejunal Ulcer; Gastro-Jejuno-Colic Fistula .....	119
55. Intestinal Obstruction by Adhesions .....	120
56. Hernia .....	121
57. Mesenteric Thrombosis and Embolism .....	122
58. Intussusception .....	123
59. Meckel's Diverticulum .....	124
60. Benign Tumors .....	125
61. Malignant Tumors .....	126
62. Regional Enteritis .....	127
63. Tuberculosis — Typhoid Ulcers .....	128

#### THE LARGE INTESTINE

64. Relations .....	129
65. Structure .....	130
66. The Rectum .....	131
67. Pelvic Fascia and Anal Musculature .....	132
68. Arterial Supply .....	133
69. Venous Drainage .....	134
70. Lymphatic Drainage .....	135
71. Nerve Supply .....	136
72. Normal Appendix .....	137
73. Pathological Appendix .....	138
74. Congenital Anomalies; Volvulus of the Sigmoid .....	139
75. Congenital Occlusion; Malformations of the Anus and Rectum .....	140
76. Megacolon .....	141
77. Diverticula and Diverticulitis .....	142
78. Benign Tumors; Multiple Polyposis .....	143
79. Malignant Tumors .....	144
80. Ulcerative Colitis .....	145
81. Tuberculous Colitis; Rectal Stricture (Lymphopathia Venereum) .....	146
82. Amebic Colitis .....	147
83. Hemorrhoids; Anal Fistulae; Rectal Prolapse; Fissure-in-Ano .....	148

#### INJURIES OF THE ABDOMEN

84. Stomach .....	149
85. Small Intestine and Mesentery .....	150
86. Small Intestine and Mesentery (continued) .....	151
87. Colon .....	152
88. Colon (continued) .....	153
89. Rectum .....	154
90. Liver .....	155
91. Kidneys .....	156
92. Bladder .....	157
93. Immersion Blast Injuries .....	158

#### SECTION III

#### MALE REPRODUCTIVE ORGANS AND MALE AND FEMALE MAMMARY GLANDS

##### THE TESTICLE

1. Internal Structure .....	160
2. Blood Supply .....	161

PLATE NUMBER	PAGE NUMBER
3. Structure Covering the Testicle and Its Innervation .....	162
4. Descent .....	163
5. Malposition .....	164
6. Hermaphroditism .....	165
7. Hermaphroditism (continued) .....	166
8. Sterility .....	167
9. Testicular Biopsy .....	168
10. Hypogonadism .....	169
11. Inflammations .....	170
12. Granulomata .....	171
13. Malignant Tumors .....	172
14. Malignant Tumors (continued) .....	173

##### THE PROSTATE

15. The Normal Prostate .....	174
16. Prostatitis; Prostatic Abscess .....	175
17. Benign Hypertrophy .....	176
18. Benign Hypertrophy (continued) .....	177
19. Carcinoma .....	178

##### THE MALE BREAST

20. Gynecomastia .....	179
21. Malignancies (Carcinoma; Sarcoma) .....	180

##### THE FEMALE BREAST

22. Position and Structure of the Adult Female Breast .....	181
23. Blood Supply .....	182
24. Lymphatic Drainage .....	183
25. Physiology .....	184
26. Development .....	185
27. Anomalies of Mammary Development .....	186
28. Pregnancy and Lactation .....	187
29. Painful Engorgement; Puerperal Mastitis .....	188
30. Chronic Cystic Mastitis; Mastodynia .....	189
31. Chronic Cystic Mastitis; Adenosis .....	190
32. Chronic Cystic Mastitis; Cystic Disease .....	191
33. Tuberculosis; Syphilis; Plasma Cell Mastitis .....	192
34. Fibro-adenoma; Benign Intracystic Papilloma .....	193
35. Infiltrating or Scirrhous Carcinoma .....	194
36. Fulminant Forms of Mammary Carcinoma .....	195
37. Circumscribed Forms of Mammary Adenocarcinoma .....	196
38. Paget's Disease of the Nipple .....	197
39. Giant Mammary Myxoma; Mammary Sarcoma .....	198

#### SECTION IV

#### HEART AND AORTA

1. The Conduction System of the Heart .....	200
2. Congenital Heart Disease .....	201
3. Arteriosclerotic Disease of the Heart and Aorta .....	202
4. Arteriosclerotic Disease of the Heart and Aorta (continued) .....	203
5. Rheumatic Heart Disease .....	204
6. Rheumatic Heart Disease (continued) .....	205
7. Bacterial Endocarditis; Fatty Heart .....	206
8. Syphilitic Aortitis; Aneurysm of Aorta; Gumma of the Heart .....	207
9. Pericarditis .....	208
10. Pericarditis; Atrophy; Myocarditis .....	209
11. Cardiac Hypertrophy and Dilatation .....	210
