

Contents

SECTION I	Page
Primary Neurologic Disorders in Infancy and Childhood	
Craniosynostoses <i>Plate 1</i>	3
Extracranial Hemorrhage and Skull Fractures in Newborn <i>Plate 2</i>	4
Intracranial Hemorrhage in Newborn <i>Plate 3</i>	5
Brain Malformations <i>Plates 4–5</i>	6–7
Hydrocephalus <i>Plate 6</i>	8
Shunt Procedure for Hydrocephalus <i>Plate 7</i>	9
Spinal Dysraphism <i>Plates 8–9</i>	10–11
Cerebral Palsy <i>Plate 10</i>	12–13
Floppy Baby <i>Plate 11</i>	14
Hypotonia <i>Plate 12</i>	15
Werdnig-Hoffmann Disease <i>Plate 13</i>	16
Hereditary Motor-Sensory Neuropathy Type III and Type IV <i>Plate 14</i>	17
Nemaline Myopathy <i>Plate 15</i>	18
Brachial Plexus and/or Cervical Nerve Root Injuries at Birth <i>Plate 16</i>	19
Metachromatic Leukodystrophy <i>Plate 17</i>	20
Friedreich's Ataxia <i>Plate 18</i>	21
Developmental Dyslexia <i>Plate 19</i>	22
Infantile Autism <i>Plate 20</i>	23
Brain Tumors in Children <i>Plates 21–22</i>	24–25
Tuberous Sclerosis and Sturge-Weber Disease <i>Plate 23</i>	26
Reye's Syndrome <i>Plate 24</i>	27

SECTION II	Page
Common Problems in Neurology	
Migraine Headache and Cluster Headache <i>Plate 1</i>	3
Muscle Contraction Headache <i>Plate 2</i>	3
Giant-Cell (Temporal) Arteritis, Polymyalgia Rheumatica <i>Plate 3</i>	3
Trigeminal Neuralgia <i>Plate 4</i>	3
Causes of Vertigo <i>Plate 5</i>	3
Alcoholism <i>Plate 6</i>	3
Amnesia <i>Plate 7</i>	3
Sleep Disorders <i>Plate 8</i>	38–39
Electroencephalography <i>Plate 9</i>	40
Causes of Seizures <i>Plate 10</i>	4
Generalized Tonic-Clonic Seizures <i>Plate 11</i>	4
Absence (Petit Mal) Seizures <i>Plate 12</i>	4
Simple and Complex Partial Seizures <i>Plate 13</i>	44–45
Status Epilepticus <i>Plate 14</i>	46
Differential Diagnosis of Coma <i>Plate 15</i>	47–48
SECTION III	
Cerebrovascular Disease	
<i>Introduction</i>	
Ischemic and Hemorrhagic Stroke <i>Plate 1</i>	5
<i>Nonhemorrhagic Stroke</i>	
Role of Platelets in Arterial Thrombosis <i>Plate 2</i>	5
Atherosclerosis, Thrombosis and Embolism <i>Plate 3</i>	5
Temporal Profile of Transient Ischemic Attack (TIA), Residual Ischemic Neurologic Deficit (RIND), and Completed Infarction (CI) <i>Plate 4</i>	5
Stenosis or Occlusion of Carotid Artery <i>Plate 5</i>	5

SECTION III (continued)	Page
Ischemia in Internal Carotid Artery Territory: Clinical Manifestations <i>Plate 6</i>	56
Potential Collateral Circulation Following Occlusion of Internal Carotid Artery <i>Plate 7</i>	57
Occlusion of Middle and Anterior Cerebral Arteries <i>Plate 8</i>	58
Lacunar Infarction <i>Plate 9</i>	59
Ischemia in Vertebrobasilar Territory: Clinical Manifestations <i>Plate 10</i>	60
Ischemia in Vertebrobasilar Territory: Clinical Manifestations Related to Site <i>Plate 11</i>	61
Extracranial Occlusive Disease of Vertebral and Subclavian Arteries <i>Plate 12</i>	62
Intracranial Occlusion of Vertebral Artery <i>Plate 13</i>	63
Occlusion of Basilar Artery and Branches <i>Plate 14</i>	64
Occlusion of "Top of Basilar" and Posterior Cerebral Arteries <i>Plate 15</i>	65
Cardiac Sources of Cerebral Emboli <i>Plate 16</i>	66
Uncommon Etiologic Mechanisms in Stroke <i>Plate 17</i>	67
CT Diagnosis in Cerebrovascular Disease <i>Plates 18–19</i>	68–69
Noninvasive Tests for Carotid Artery Blood Flow <i>Plates 20–21</i>	70–71
Angiography of Cervical and Cerebral Vessels <i>Plate 22</i>	72
Angiography: Types of Imaging <i>Plate 23</i>	73
Clinical Evaluation and Therapeutic Options in Stroke <i>Plate 24</i>	74
Endarterectomy for Extracranial Carotid Artery Atherosclerosis <i>Plate 25</i>	75
Hemorrhagic Stroke	
Intracerebral Hemorrhage (Hypertensive): Pathogenesis <i>Plate 26</i>	76
Intracerebral Hemorrhage: Clinical Manifestations Related to Site <i>Plate 27</i>	77
Vascular Malformations <i>Plate 28</i>	78
Embolization Techniques <i>Plate 29</i>	79
Distribution of Congenital Cerebral Aneurysms <i>Plate 30</i>	80

SECTION III (continued)	Page
Giant Congenital Aneurysms <i>Plate 31</i>	80
Ophthalmologic Manifestations of Cerebral Aneurysms <i>Plate 32</i>	81
Clinical Manifestations of Congenital Aneurysm Rupture <i>Plate 33</i>	82
Frontotemporal Approach for Internal Carotid, Ophthalmic, Anterior Communicating, and Middle Cerebral Aneurysms <i>Plate 34</i>	83
Temporal Approach for Basilar Trunk or Posteriorly Directed Basilar Apex Aneurysm <i>Plate 35</i>	84
Aneurysm Clips <i>Plate 36</i>	85
Diffuse Cerebral Hypoxia	
Hypoxic Brain Damage and Brain Death <i>Plate 37</i>	86
SECTION IV	
Central Nervous System Trauma	
Head Injuries	
Compound Depressed Skull Fractures <i>Plate 1</i>	90
Basilar Skull Fractures <i>Plate 2</i>	91
Epidural Hematoma <i>Plate 3</i>	92
Initial Management of Severe Head Injuries <i>Plate 4</i>	93
Glasgow Coma Scale <i>Plate 5</i>	94
CT Scans and Angiograms of Intracranial Hematomas <i>Plate 6</i>	95
Acute Intracranial Hematoma <i>Plate 7</i>	96
Acute Subdural Hematoma <i>Plate 8</i>	97
Craniostomy for Chronic Subdural Hematoma <i>Plate 9</i>	98
Ventriculostomy <i>Plate 10</i>	99
Intensive Medical Management of Severe Head Injury <i>Plate 11</i>	100
Respiratory Exchange in Head Injury <i>Plate 12</i>	101
Salt and Water Balance in Head Injury <i>Plate 13</i>	102
Carotid-Cavernous Fistula <i>Plate 14</i>	103
Balloon Embolization of Carotid-Cavernous Fistula <i>Plate 15</i>	104

SECTION IV (continued)	Page
Prognosis in Severe Head Injuries <i>Plate 16</i>	105
Spinal Injuries	
Cervical Spine Injury: Incomplete Spinal Cord Syndromes <i>Plate 17</i>	106
Cervical Spine Injury: Flexion and Flexion-Rotation <i>Plate 18</i>	107
Cervical Spine Injury: Hyperextension <i>Plate 19</i>	108
Cervical Spine Injury: Compression <i>Plate 20</i>	109
Cervical Spine Injury: Management at Accident Site <i>Plate 21</i>	110
Cervical Spine Injury: Traction and Bracing <i>Plate 22</i>	111
Cervical Spine Injury: Anterior Interbody Fusion by Dowel Graft <i>Plate 23</i>	112
Cervical Spine Injury: Posterior Fusion <i>Plate 24</i>	113
Cervical Spine Injury: Rehabilitation of Patient <i>Plate 25</i>	114

SECTION V

Brain Tumors

Some Common Manifestations of Brain Tumors <i>Plate 1</i>	116
Pseudotumor Cerebri <i>Plate 2</i>	117
Gliomas <i>Plate 3</i>	118
Tumors Metastatic to Brain <i>Plate 4</i>	119
Meningiomas <i>Plates 5–6</i>	120–121
Pituitary Tumors <i>Plate 7</i>	122
Transsphenoidal Removal of Pituitary Tumor <i>Plate 8</i>	123
Craniopharyngiomas <i>Plate 9</i>	124
Tumors of Pineal Region <i>Plate 10</i>	125
Acoustic Neurinomas <i>Plate 11</i>	126
Removal of Acoustic Neurinoma: Posterior Fossa Approach <i>Plate 12</i>	127
Neurofibromatosis (von Recklinghausen's Disease) <i>Plate 13</i>	128

SECTION V (continued)	Page
Intraventricular Tumors <i>Plate 14</i>	129
Chordomas <i>Plate 15</i>	130
Differential Diagnosis in Central Nervous System Tumors <i>Plate 16</i>	131
Magnetic Resonance Imaging Diagnosis in Central Nervous System Tumors <i>Plate 17</i>	132–133

SECTION VI

Common Problems in Psychiatry

Major Depression <i>Plate 1</i>	136
Dysthymic Disorder <i>Plate 2</i>	137
Bipolar Affective Disorder: Manic Episode <i>Plate 3</i>	138
Anxiety State <i>Plate 4</i>	139
Schizophrenic Disorder <i>Plate 5</i>	140
Compulsive Personality Disorder <i>Plate 6</i>	141

SECTION VII

Degenerative Disorders of Central Nervous System

Alzheimer's Disease: Clinical Manifestations, Progressive Phases <i>Plate 1</i>	145
Alzheimer's Disease: Pathology <i>Plate 2</i>	146
Testing for Defects of Higher Cortical Function <i>Plate 3</i>	147
Dominant Hemisphere Language Dysfunction <i>Plate 4</i>	148
Nondominant Hemisphere Higher Cortical Dysfunction <i>Plate 5</i>	149
Treatable Dementias <i>Plate 6</i>	150
Normal-Pressure Hydrocephalus <i>Plate 7</i>	151
Chorea <i>Plate 8</i>	152
Parkinsonism: Early Manifestations <i>Plate 9</i>	153
Parkinsonism: Successive Clinical Stages <i>Plates 10–11</i>	154–155

SECTION VII (continued)	<i>Page</i>
Parkinsonism: Hypothesized Role of Dopa <i>Plate 12</i>	156

SECTION VIII

Infectious Diseases

Bacterial Meningitis <i>Plates 1–2</i>	158–159
Parameningeal Infections <i>Plate 3</i>	160
Nocardiosis, Cysticercosis and Listeriosis <i>Plate 4</i>	161
Toxoplasmosis and Cryptococcosis <i>Plate 5</i>	162
Neurosyphilis <i>Plate 6</i>	163
Tuberculosis of Brain and Spine <i>Plate 7</i>	164
Tetanus <i>Plate 8</i>	165
Poliomyelitis <i>Plates 9–10</i>	166–168
Herpes Zoster <i>Plate 11</i>	169
Herpes Simplex Encephalitis and Rabies <i>Plate 12</i>	170
Slow Virus Infections <i>Plate 13</i>	171

SECTION IX

Demyelinating Disorders of Central Nervous System

Multiple Sclerosis: Clinical Manifestations <i>Plate 1</i>	174–175
Multiple Sclerosis: Diagnostic Tests <i>Plates 2–3</i>	176–177
Multiple Sclerosis: Central Nervous System Pathology <i>Plate 4</i>	178
Acute Disseminated Encephalomyelitis and Acute Hemorrhagic Leukoencephalopathy <i>Plate 5</i>	179–180

SECTION X

Disorders of Spinal Cord, Nerve Root and Plexus

Motor Impairment Related to Level of Spinal Cord Injury <i>Plate 1</i>	182
---	-----

SECTION X (continued)	<i>Page</i>
-----------------------	-------------

Sensory Impairment Related to Level of Spinal Cord Injury <i>Plate 2</i>	183
Acute Spinal Cord Syndromes: Evolution of Symptoms <i>Plate 3</i>	184
Acute Spinal Cord Syndromes: Pathology, Etiology, Diagnosis <i>Plate 4</i>	185
Tumors of Spinal Column <i>Plate 5</i>	186
Tumors of Spinal Cord <i>Plate 6</i>	187
Myelographic and CT Characteristics of Spinal Tumors <i>Plate 7</i>	188–189
Syringomyelia <i>Plate 8</i>	190
Subacute Combined Degeneration <i>Plate 9</i>	191
Cervical Spondylosis <i>Plate 10</i>	192
Cervical Disc Herniation: Clinical Manifestations <i>Plate 11</i>	193
Radiographic Diagnosis of Cervical Radiculopathy <i>Plate 12</i>	194
Radiographic Diagnosis of Lumbar Radiculopathy <i>Plate 13</i>	195
Examination of Patient With Low Back Pain <i>Plate 14</i>	196
Lumbar Disc Herniation: Clinical Manifestations <i>Plate 15</i>	197
Psychosomatic Back Complaints <i>Plate 16</i>	198
Spinal Stenosis <i>Plate 17</i>	199
Diabetic Radiculopathy <i>Plate 18</i>	200
Brachial and Lumbosacral Plexopathies <i>Plate 19</i>	201

SECTION XI

Disorders of Motor Neuron, Peripheral Nerve, Neuromuscular Junction and Skeletal Muscle
Classification and Diagnostic Studies

Diseases of Motor-Sensory Unit: Regional Classification <i>Plate 1</i>	204
Electromyography and Laboratory Studies in Neuromuscular Diseases: Serum Enzymes <i>Plate 2</i>	205
Muscle Biopsy: Technique <i>Plate 3</i>	206
Sections From Muscle Biopsy Specimens <i>Plate 4</i>	207

SECTION XI (continued)	Page
<i>Disorders of Motor Neuron</i>	
Motor Neuron Disease: Early Clinical Manifestations <i>Plates 5-6</i>	208-209
Motor Neuron Disease: Habilitation Devices and Procedures <i>Plate 7</i>	210
<i>Disorders of Peripheral Nerves</i>	
Bell's Palsy <i>Plate 8</i>	211
Carpal Tunnel Syndrome <i>Plate 9</i>	212
Other Compressive or Entrapment Neuropathies <i>Plate 10</i>	213
Peripheral Neuropathies: Metabolic, Toxic and Nutritional <i>Plate 11</i>	214
Dysproteinemia (Amyloid Neuropathy) <i>Plate 12</i>	215
Peripheral Neuropathy Caused by Heavy Metal Poisoning <i>Plate 13</i>	216
Mononeuritis Multiplex With Polyarteritis Nodosa <i>Plate 14</i>	217
Guillain-Barré Syndrome <i>Plate 15</i>	218-219
Hereditary Motor Sensory Neuropathy Type I <i>Plate 16</i>	220
Hereditary Motor Sensory Neuropathy Type I: Motor Nerve Conduction Velocity <i>Plate 17</i>	221
Hereditary Sensory Neuropathy <i>Plate 18</i>	222
Leprosy (Hansen's Disease) <i>Plate 19</i>	223

SECTION XI (continued)	Page
<i>Disorders of Neuromuscular Junction</i>	
Myasthenia Gravis: Clinical Manifestations <i>Plate 20</i>	224
Myasthenia Gravis: Etiologic and Pathophysiologic Concepts <i>Plate 21</i>	225
Myasthenia Gravis: Electromyography <i>Plate 22</i>	226
Lambert-Eaton Syndrome <i>Plate 23</i>	227
<i>Disorders of Skeletal Muscle</i>	
Duchenne's Muscular Dystrophy <i>Plates 24-25</i>	228-229
Other Types of Muscular Dystrophy <i>Plate 26</i>	230
Myotonic Dystrophy <i>Plate 27</i>	231
Polymyositis/Dermatomyositis <i>Plates 28-29</i>	232-233
Myopathies Related to Disorders of Potassium Metabolism <i>Plate 30</i>	234
Myopathies Secondary to Endocrine Disorders <i>Plate 31</i>	235
McArdle's Disease <i>Plate 32</i>	236
Myoglobinuric Syndromes <i>Plate 33</i>	237
<i>Miscellaneous Disorders of Motor-Sensory Unit</i>	
Food-Borne Neurotoxins <i>Plate 34</i>	238
Selected References	239-247
Subject Index	247-256

Some of the illustrations in this volume originally appeared in CIBA CLINICAL SYMPOSIA issues. We wish to acknowledge the original authors' contribution in the development of these illustrations.
