## **Obstetrics**

---

1	<b>Complications of pregnancy</b>	15
	Antepartum haemorrhage	
	Eclampsia	
2	<b>Delivery</b>	19
	Normal delivery	
	Premature labour	
	Low forceps delivery	
	Vacuum extraction	
	Lower-segment caesarean section	
	Breech delivery	
3	<b>General obstetric procedures</b>	32
	Episiotomy	
	Artificial rupture of membranes	
	Cord prolapse	
	Symphysiotomy	
	Internal podalic version	
	Craniotomy	
4	<b>Postpartum procedures</b>	39
	Repair of perineal, cervical, and vaginal tears	
	Drainage of vulval haematoma	
	Manual removal of the placenta	
	Postpartum haemorrhage	
	Inverted uterus	
	Rupture of the uterus	
5	<b>Aborted pregnancy</b>	49
	Evacuation of the uterine cavity	
	Termination of early pregnancy	
	Ruptured ectopic pregnancy	

---

## Gynaecology

---

- |   |  |    |
|---|--|----|
| 6 | <b>Biopsies</b><br>Cytological samples<br>Endometrial biopsy<br>Cervical biopsy<br>Vulval biopsy<br>Fixation and packaging of specimens                            | 55 |
| 7 | <b>Drainage of abscesses</b><br>Bartholinian abscess<br>Pelvic abscess<br>Haematocolpos  | 59 |
| 8 | <b>General gynaecological procedures</b><br>Dilatation and curettage<br>Polypectomy<br>Cervical erosion<br>Procidentia<br>Twisted ovarian cyst<br>Genital injuries | 62 |
| 9 | <b>Contraception</b><br>Female sterilization<br>Insertion and removal of intrauterine devices  | 69 |

## Orthopaedics and traumatology

---

- |                         |   |    |
|-------------------------|---|----|
| <b>Basic techniques</b> |   |    |
| 10                      | <b>Traction</b><br>Lower-limb traction<br>Skull traction  | 75 |
| 11                      | <b>Plaster technique</b><br>Preparation of plaster bandages<br>Removal of tight rings and bangles<br>Application of plaster<br>Complications associated with immobilization in plaster<br>Plaster removal | 82 |
| 12                      | <b>Open fractures and tendon injuries</b><br>Open fractures<br>Tendon injuries  | 92 |
| 13                      | <b>Soft-tissue injuries</b><br>Vascular trauma<br>Volkmann's ischaemia<br>Split-skin grafting<br>Hand injuries  | 97 |

**Fractures, dislocations, and other injuries**

- |    |  |     |
|----|--|-----|
| 14 | <b>Fractures of the upper limb</b>                       | 106 |
|    | Shoulder and humerus                                     |     |
|    | Elbow region   |     |
|    | Forearm  |     |
|    | Wrist and hand   |     |
| 15 | <b>Fractures of the pelvis and lower limb</b>            | 125 |
|    | Pelvis   |     |
|    | Femur  |     |
|    | Knee region  |     |
|    | Tibial diaphysis   |     |
|    | Ankle and foot   |     |
| 16 | <b>Fractures in children</b>                             | 136 |
|    | Epiphyseal plate injuries                                |     |
|    | Supracondylar fracture of the humerus                    |     |
| 17 | <b>Dislocations of the upper limb</b>                    | 140 |
|    | Shoulder   |     |
|    | Elbow  |     |
|    | Hand   |     |
| 18 | <b>Dislocations of the lower limb</b>                    | 147 |
|    | Hip  |     |
|    | Ankle and foot   |     |
| 19 | <b>Spinal injuries</b>                                   | 151 |
|    | Without cord damage                                      |     |
|    | With cord damage   |     |
| 20 | <b>Head injuries</b>                                     | 155 |
|    | Wounds of the scalp                                      |     |
|    | Skull fractures  |     |
|    | Intracranial injuries                                    |     |
|    | Open head injuries                                       |     |
|    | Instructions for the care of the patient after discharge |     |
| 21 | <b>Amputations</b>                                       | 163 |
|    | Guillotine amputation                                    |     |
|    | Definitive amputation                                    |     |
|    | Specific sites   |     |
| 22 | <b>Burns</b>   | 169 |
|    | Classification of burn depth                             |     |
|    | Assessment of the patient                                |     |
|    | First aid  |     |
|    | Initial resuscitation                                    |     |
|    | Early treatment of the burn wound                        |     |
|    | Large burns  |     |
|    | Burn healing   |     |
|    | Escharotomy  |     |

**Bone and joint infections and other lesions**

- |    |   |     |
|----|---|-----|
| 23 | <b>Infections</b>                           | 176 |
|    | Pyogenic arthritis of infancy and childhood |     |
|    | Acute osteomyelitis                         |     |
|    | Hand infections                             |     |
|    | Chronic infections                          |     |

24	<b>Miscellaneous bone and joint disorders</b>	183
	Congenital and childhood disorders of the foot and hip	
	Deformities due to poliomyelitis	
	Deformities due to leprosy	
Annex 1	Surgical trays and equipment for specific procedures	187
Annex 2	Essential surgical instruments, equipment, and materials for the district hospital	193
	Index	203
