

## Index

- Abscesses  
  of lung 81, 132-134, 243  
  peribronchial 179
- Adenoma, bronchial 16, 18, 19, 20, 86, 95, 238
- Adenomatoid malformation of lung 164
- Adenopathy  
   hilar, diseases causing 185-187  
  symmetrical 140-143  
  of mediastinum, diseases in 41  
  "1-2-3" pattern 140, 143  
  parahilar, diseases causing 185-187
- Air bronchogram effects 8, 32, 35, 38, 112, 106, 107
- Alimentary tract, duplications and cysts 199-200
- Alveolar  
  -capillary block 104  
  cell carcinoma 10, 238  
  -filling pattern 112-115  
  disease 70, 71, 195-196  
    bat-wing distribution 32, 35, 38  
    rate of clearing in 35, 37  
  patterns 189
- Amniotic aspiration 107
- Aneurysm  
  aorta 100  
    arteriosclerotic 2, 4  
  cardiac 13  
  dissecting, of aorta 2, 4, 5  
  luetic 5
- Angiocardiogram, dextrogram 118-120
- Angiocardiography  
  pulmonic valve stenosis 157-158  
  right ventricle in systole 157-158
- Angiography  
  aorta 4, 5  
  arteriovenous fistula 124  
  double aortic arch 128, 129
- Anomalous left pulmonary artery 130
- Anomalous pulmonary venous return 56-59, 109
- Anomalous subclavian artery 130
- Anonymous pulmonary venous return 224
- Anoxemia 207-208
- Aorta  
  aneurysm 100  
    dissecting 100  
  coarctation 100, 211  
    double arch 126-130  
    kink 98-101  
    pseudocoarctation 98-101  
    rupture of 48-51  
    small size, significance of 56, 57  
    uncoiling 5
- Aortography, in rupture of aorta 49, 50
- Arteriovenous Fistula  
  angiogram 124  
  pulmonary 58, 122-125
- Asbestosis 167, 215-217, 235  
  early appearances in 215  
  lungs 142, 145  
  lungs and pleura 102-104
- Aspiration pneumonia 103, 241
- Aspiration pneumonitis 168
- Asthma 150-151
- Atelectasis 86, 88-91  
  plate, in pulmonary infarction 193
- Autoimmune diseases 38
- Baritosis 175
- Bat-wing pattern 112-114, 241-243  
  diseases causing 35
- Berylliosis 175, 189  
  calcification in 204-205
- Blalock-Taussig operation, rib notching in 211
- Blastomycosis, calcification in 204
- Bochdalek hernia 165
- Bronchial hypoplasia 23
- Bronchial obstruction 90
- Bronchiectasis 61, 167  
  hemoptysis in 46, 87  
  in tuberculosis 191  
  location in 19
- Bronchiolar carcinoma (see alveolar cell carcinoma) 10
- Bronchioloalveolar cell carcinoma 238
- Bronchitis obliterans 23, 24
- Bronchogenic carcinoma 215-217, 238  
  cavitation in 239  
  location of 217  
  nature of margins 133  
  peripheral signs 84-87, 88-91
- Bronchogenic cyst 61
- Bronchography, in segmental obstruction 45, 46

- Bronchopulmonary-dysplasia 110
- Calcifications  
 in granulomas 203-205  
 in lung 203-205  
 in malignancy of lung 204  
 in pulmonary masses 93-96, 238  
 laminated, in granulomas 204  
 post-inflammatory, lung 92-96  
 punctate, in granulomas 204  
 ring pattern, in granulomas 204
- Capillary permeability in lungs, altered 112-114
- Caplan's pneumoconiosis 67
- Carcinoid tumor, lung 19
- Cardiac failure, right ventricular 207-208
- Cartilage calcifications in lung masses 94
- Cavitated lesions of lung 221
- Cavitated nodules in lung 64-67
- Cavities, in tuberculosis 221
- Cavity, tension type 221, 232
- Coarctation  
 of aorta 100, 160, 211  
 rib notching, 211-212
- Coccidioidomycosis 65, 66, 81, 175  
 calcification in 204
- Collapse, lobar 84-87, 88-91
- Consolidations  
 lobar 84-87, 88-91  
 lung 8
- Cor pulmonale 13, 209
- Cystic disease of lung, congenital 164
- Cystic fibrosis of lungs 78-82
- Cystic lesions of lung 60, 61, 63
- Cysts  
 enteric 199-200  
 of lung, congenital 180
- Dermoid cyst 75
- Desquamative interstitial pneumonitis 104, 168
- Diaphragm  
 depression of 22, 23, 88-89, 209-210  
 elevation of 84, 85, 193  
 with blunting 64-66  
 obscuration of (silhouette sign) 162, 163  
 shaggy 102, 104
- Double aortic arch 126-130
- Duplications, alimentary tract 199-200
- Edema, pulmonary 112-114  
 causes of 241-243
- Eggshell calcification 175-177, 205  
 in silicosis 216
- Emboli, multiple, lungs 136-139
- Emphysema  
 compensatory 88-89  
 diffuse, panlobar 138  
 due to chronic obstructive pulmonary disease 209-210  
 in mucoviscidosis 78-80  
 interstitial, pulmonary 150, 154  
 lobar, obstructive 119  
 obstructive 16, 18, 81, 162-165  
 of mediastinum 148-154  
 pulmonary 209-210  
 segmental obstructive, causes of 45, 46  
 subcutaneous, neck 153-154  
 vascular changes in 30
- Empyema 162-165  
 in Klebsiella pneumonia 195-196
- End-air-space atelectasis 109
- Endobronchial disease, tuberculosis 191
- Endobronchial lesions 95-96
- Enteric cyst 199-200
- Eosinophilic granuloma, lungs 143, 145-146
- Epicardium, "fat sign" in 12, 13, 14
- Esophagus  
 displacement of 200  
 impressions on 126-130  
 in scleroderma 168  
 motor dysfunction 168
- Extramedullary hematopoiesis 220
- Extrapleural air sign 148, 153-154
- Fibrocystic lung 169-171
- Fissures  
 pleura, displacement 195-196  
 visualization due to fluid 107
- Foreign body aspiration 242
- Friedlander's pneumonia 164, 195-196
- Gamma globulin deficiency 82
- Ghon complex 186, 203
- Gonadal dysgenesis (Turner's syndrome) 100
- Goodpasture's syndrome 114, 242-243
- Granulomas  
 formation of 203-204  
 lung 64-67  
 solitary, of lung 203-205
- Granulomatous diseases with calcifications 203-205
- Granulomatous pneumonitis  
 fungus diseases 143  
 patterns 140-147
- Ground glass texture, lungs 104
- Hamartoma 94, 238
- Hamman-Rich syndrome 37, 81, 168

- Hampton's hump in pulmonary infarction 193
- Hands, in scleroderma 168
- Heart
  - dilatation of 13
  - enlargement of 12, 13
    - in myxedema 233
  - epicardial "fat sign" in, 12, 13, 14
  - left atrial enlargement 26, 28, 29
  - left ventricular enlargement in 13
  - mitral stenosis signs 26, 28
  - mitral valve disease in 26, 28
  - right ventricular enlargement 136-138
  - shaggy border 102-104
  - superimposition shadows, causes 90
- Hematopoiesis, extramedullary 220
- Hemopericardium, in trauma 51
- H. influenzae* pneumonia 164
- Hemoptysis 19, 114
  - causes of 87
  - diseases causing 46
- Hemorrhage, pulmonary 114
- Hemosiderosis
  - idiopathic pulmonary 32, 37, 38, 114, 243
  - lungs 103
- Hernia, Bochdalek type 165, 219-220
- Herniation, diaphragmatic, congenital 164
- Hilar displacement 84, 85, 88-89
- Hilar vessels, enlargement 210
- Histoplasma 95-96
- Histoplasmosis 175, 185
  - calcification in 204
- Hodgkin's disease 6, 227-228
  - calcification in, following therapy 205
  - lung parenchyma 40, 41
  - vs* sarcoidosis, differential diagnosis in 227-228
- Honeycombed lung 169-171
- Hyaline membrane
  - disease 106-110
  - formation 72
- Hydatid cyst 231-232
  - location in lungs 231
- Hydrocarbon pneumonia 180
- Hydropneumothorax 162, 164
- Hyperemia of lungs 223-225
- Hyper-expansion of lung 235
- Hyperlucency
  - of lungs 78-80, 136, 138
  - of lung bases 235
- Hyperlucent cysts, lung 162-165
- Hyperlucent lung, unilateral 119
- Hypersensitivity states, edema in 114
- Hypertension
  - bronchial artery 208
  - pulmonary artery 136-139
- Hyperventilation 209-210
  - lungs 136, 138, 148, 149
- Hypoplasia, pulmonary artery 119
- Hypoproteinemia 207-208
- Hypovascularity, pulmonary arteries 116-120
- Idiopathic hyperlucent lung 23
- Immunological disease, silicosis in 176
- Infarction, pulmonary 10, 134, 193
- Infectious mononucleosis 186
- Infiltrations, nonhomogeneous, lungs 9
- Inhalation pneumonitis 114
- Intercostal spaces, widening of 88-89
- Interstitial diseases of the lungs 78-80, 102-104, 189
- Interstitial fibrosis
  - basilar, causes 166-171
  - lungs, in sarcoidosis 145
- Interstitial lung disease, basilar distribution in 102-104
- Interstitial pattern in lung disease 241-243
- Interstitial pneumonitis 166-171
  - distribution in 166-171
  - in the rheumatoid pneumonitis 184
- Kerley lines 242
- Kink, aorta 98-101
- Klebsiella pneumonia 195-196
- Leukemia in lung 186
- Ligamentum arteriosum 100
- Lungs
  - air trapping in 16, 18, 22, 23, 78-80
  - alveolar filling in 8, 10
  - "ball-valve" obstruction effect 16, 18, 19
  - blood shunts in 16, 19
  - bone formation in 29
  - bronchogenous spread of disease 8, 10
  - carcinoma 19
  - diseases with distribution in lower lobes 10
  - diseases with multifocal distribution 10
  - hemosiderosis in 29, 37
  - hyperlucency in 16, 18, 20, 22, 23
  - hypovascularity 22, 23
  - infarct in 10
  - Kerley lines 29
  - lobar expansion in 10
  - obstructive emphysema in 16, 18
  - oligemia in 19, 22, 24
  - thromboembolism in 19, 24
- Lymphomas 5, 6
  - mediastinum 76

- Malformation, arteriovenous, pulmonary 112-125
- Marfan's syndrome 100
- Masses  
 in lungs 231-232  
   age incidences 96  
   lobulation 94, 95, 237-238  
   parenchyma, lobulated 112-125  
 in mediastinum 199-200  
 large, in lung fields 93-96, 132-134  
 lung fields, nature of margins 132-134  
 pulmonary, margin characteristics 237-239
- Mediastinal masses, radiological management 76
- Mediastinum  
 adenopathy 5  
 anterior, masses in 74-76, 220  
 displacement 16, 18  
 emphysema in 148-154  
 infiltration of 5  
 large masses in 5, 6  
 lymphoma in 5, 6  
 masses in 2, 5, 6, 199-200  
 middle, masses in 199-200  
 oat cell carcinoma in 5  
 posterior, masses in 199-200, 219-220  
 shift of 88-90, 162, 164  
 superior, masses in 98, 100  
 teratoma in 5, 6  
 thymoma *vs* teratoma 6
- Mendelson's syndrome 242-243
- Meningocele  
 intrathoracic 197-198  
 lateralizing 219
- Mesothelioma 95, 237-238  
 asbestos in 104
- Metastasis  
 characteristics in lung 66  
 to lung, nature of margins 133
- Microcardia effect, in emphysema 210
- Miliary nodules, lungs, tuberculosis *vs* metastasis 54
- Miliary pattern, lungs 106, 107
- Miliary pneumonitis patterns 140-147
- Minor fissure  
 elevation of 84-87  
 thickening by fluid 132, 133  
 upward bowing of 84-86
- Mitral disease  
 "hyperlucency" of bases in 235  
 pulmonary vasculature in 236
- Mitral stenosis 181-182
- Mitral valvular disease 138
- Mixed patterns, alveolar and interstitial 37
- Mucoviscidosis 78-82  
 lungs 103
- Myasthenia gravis 220
- Myxedema 233
- Myxoma, pulmonary artery 116-120
- Neurofibromatosis 197-198, 219  
 rib notching in 212
- Newborn chest diseases, characteristic lung markings in 106-110
- Nodules  
 cavitated, lung 64-67  
 granulomatous, lungs, characteristic course 144-146  
 in sarcoidosis 144-146  
 interstitial, lungs 140-147  
 lung, in histoplasmosis 186  
 pulmonary, size considerations 92-96
- Notching of ribs 211-212  
 in neurofibromatosis 197
- Oat cell carcinoma 5, 19
- Obstruction  
 endobronchial 84-87, 88-91  
 pulmonary artery 116-120
- Obstructive lung disease, chronic 78-82
- Oligemia, lung 136, 138
- Opacification, progressive, of lungs 108, 109
- Osteoarthropathy, pulmonary, in mesothelioma 238
- Oxygen toxicity 70-73  
 fibrosis in 72  
 histologic findings 72  
 of lungs 110
- Pancreatic deficiency 78-82
- Paracardial air 151
- Paraganglioma 19
- Patent ductus arteriosus 224
- Pericardial cyst 76
- Pericardial effusion 12, 13, 233
- Pericardial thickening 14
- Pleura  
 calcification 167  
 effusion 10, 12, 13, 67  
   in Friedlander's pneumonia 195-196  
   in pulmonary infarction 193  
   in rheumatoid disease 183-184  
   in trauma 49  
   in tuberculosis 191  
   loculated 134  
   subpulmonary, in pulmonary infarction 193  
 in granulomatous disease 66

- plaques, in asbestosis 215
- pleuritic pain 14
- thickening 102-104
  - by fibrosis 142, 167
  - by fluid 132, 133
  - in asbestosis 215
- Pneumatocoles 179-180
  - in pneumonia, mechanism 164
  - in staphylococcal pneumonia 162-165
- Pneumococcal pneumonia 164
- Pneumoconiosis 173
- Pneumocystis carinii* pneumonitis 37
- Pneumomediastinum 148-154
  - causes 150
  - signs in 150-154
- Pneumonia
  - alveolar-filling 114
  - Friedlander's 195-196
    - complications in 195
  - Klebsiella 195-196
  - lobar, in tuberculosis 191
  - patchy 8, 10
  - pneumococcal 10
  - viral 10
- Pneumonitis
  - granulomatous 140-147
    - diseases causing 143
  - interstitial 10
    - plasma cell 37
  - miliary 140-147
    - pattern 52-54
  - organizing 95
- Pneumoperitoneum 149-150
- Pneumothorax 149-150, 153
  - loculated 162, 164
- Popcorn calcification 94
- Posterior mediastinum, masses in 232
- Post-myocardial infarction syndrome 12, 14
- Post-operative lung disease 71, 72
- Post-stenotic dilatation, pulmonary artery
  - 156-160
  - complications 159
- Progressive massive fibrosis, in silicosis 216
- Pseudoaneurysm, aorta 50, 51
- Pseudocoarctation, aorta 98-101
- Pseudotruncus arteriosus 225
- Pseudotumor, inflammatory, of lung 92-96
- Pulmonary alveolar proteinosis 35
- Pulmonary arterial hypertension 207-208, 209-210
- Pulmonary arteries
  - abrupt tapering 136-139
  - decreased perfusion in 22, 24
  - enlargement 136-139, 156-160
  - hypertension 160
  - hypervascularity 116-120
  - hypoplasia 119
  - hypovascularity 116-120
  - idiopathic dilatation 160
  - in pulmonary hypertension 29, 30
  - myxoma 116-120
  - obstruction 116-120
  - stenosis 119
  - strangulation 24
  - thromboembolism 116-120
  - unilateral absence of 24
  - unilateral hypoplasia 24
- Pulmonary blood flow
  - decreased 116-120
  - increased 116-120
    - obstruction, rib notching in 212
- Pulmonary dysmaturity 107
- Pulmonary edema 207-208, 241-243
- Pulmonary embolism, oligemia in 24
- Pulmonary emphysema 209-210
- Pulmonary flow, increase in 57, 58
- Pulmonary hypertension 136-139
- Pulmonary infarction 134, 193
- Pulmonary outflow tract, enlargement 56, 57, 156-160, 210
- Pulmonary-renal syndrome 243
- Pulmonary sequestration 216
  - blood supply in 216
- Pulmonary valve stenosis 18
- Pulmonary vasculature
  - anomalous vessels 56-59
  - decrease in 225
  - increase in 223-225
  - prominent upper lobe vessels 104
- Pulmonary veins
  - in congestive failure 29
  - lower lobes, decreased caliber of 181-182
  - upper lobe, dilatation of 181-182
- Pulmonary venous hypertension 181-182
- Pulmonary vessels, diminished size 16, 18, 22, 23
- Pulmonic stenosis 138
  - infundibular 24
- Pulmonic valve stenosis, isolated 156-160
- Pulseless disease 211
- Renal artery stenosis, in neurofibromatosis 198
- Respiration, artificial, complication 150
- Respiratory distress
  - of newborn 106-110, 148-154
  - syndrome 126-130
- Respiratory lung 70-73

- Retrosternal air 152, 153
- Reverse-S sign 84-86
- Rheumatoid disease 66
  - lung nodules in 66
- Rheumatoid lung, findings in 183-184
- Rib notching 211-212
  - in neurofibromatosis 197-198
- Rib pseudo-notching, in tuberous sclerosis 212
- Right aortic arch 130
