

TABLE OF CONTENTS

PART I: BIOCHEMISTRY

Acid-Base Equilibrium and Buffering	3
Proteins, Enzymes, and Coenzymes	9
Bioenergetics	29
Carbohydrates	45
Lipids	79
Amino Acid Metabolism	107
Summary of Metabolism	125

PART II: MOLECULAR BIOLOGY

Nucleic Acids	141
The Nucleus, The Cell Cycle, and Meiosis	151
DNA Replication and Repair	157
Transcription	165
Protein Synthesis	175
Regulation of Gene Expression	185
Genetic Engineering	195

PART III: CELL BIOLOGY

Overview of Cell Types	217
Nucleus and Nucleolus	225
Subcellular Organelles	231
Cytoskeleton	247
Cellular Adhesion and Extracellular Matrix	255

INDEX	261
-----------------	-----
