General introduction to the IND	vii
Introduction to Volume IV	x
Acknowledgements	xii
List of reviewers	xii
1. Diseases of the oesophagus	1
Congenital abnormalities	1
Inflammatory disorders	4
Motility disorders	8
Obstructive disorders	11
Miscellaneous disorders	14
2. Diseases of the stomach other than peptic ulcers	17
Congenital abnormalities	17
Inflammatory disorders	21
Miscellaneous disorders	28
3. Gastric and duodenal ulcers and complications of gastric surgery	31
4. Diseases of the small intestine	39
Congenital abnormalities	39
Malassimilation syndromes	46
Malabsorption due to metabolic defects	52
Malabsorption associated with immune disorders	52
Inflammatory disorders	52
Obstructive disorders	57
5. Diseases of the appendix, colon, rectum, and anus	63
Diseases of the appendix	63
Congenital abnormalities of the colon and rectum	66
Inflammatory disorders of the colon and rectum	69
Motility disorders of the colon and rectum	77
Vascular disorders of the small and large intestines	80
Diseases of the anus	84
6. Diseases of the liver	87
Hepatitis	87
Hepatic fibrosis	92
Hepatic cirrhosis	93
Vascular disorders of the liver	97

Miscellaneous disorders of the liver	101
Liver diseases induced by chemicals.	104
7. Diseases of the biliary system.	107
Congenital abnormalities	107
Cholestasis	112
Gallstone disease and inflammatory disorders	116
Miscellaneous disorders	121
8. Diseases of the pancreas	123
Congenital and inherited abnormalities.	123
Inflammatory disorders	127
Miscellaneous disorders	131
9. Diseases of the peritoneum, omentum, mesentery, and abdominal wall.	133
Congenital entero-umbilical abnormalities	133
Inflammatory disorders	134
Miscellaneous disorders of the peritoneum, omentum, and mesentery	138
10. Tumours and tumour-like lesions	141
Annex 1 Infectious diseases of the digestive system	163
Annex 2 Hernias.	221
Annex 3 Miscellaneous conditions.	225
Index	229
