

## Table of contents

*J.L. Pasteels*: Introduction XI

### Chapter 1: Chemistry, morphology and receptors

*U.J. Lewis and R.N.P. Singh*

Recovery of prolactin from human pituitary glands 1

*H. Friesen, G. Tolis, R. Shiu and P. Hwang*

Studies on human prolactin: chemistry, radioreceptor assay and clinical significance 11

*R.W. Turkington, W.L. Frantz and G.C. Majumder*

Effector-receptor relations in the action of prolactin 24

*Discussion* 35

### Short Communications

*U.J. Lewis, R.N.P. Singh, V.P. Rice, B.K. Seavey and T.H. Lindsey*

A form of human growth hormone with remarkable lactogenic and growth activities 48

*V. Kruse*

Binding of bovine prolactin to serum proteins and its influence on the catabolism of prolactin 51

*E. Vila-Porcile, L. Olivier and O. Racadot*

Functional polarization of the prolactin cell: an electron microscopic study in the female rat during lactation and after weaning 56

*F.G. Sulman, Y. Givant and J. Shani-Mishkinsky*

Prolactin releasers and their receptor mechanism 60

*M.F. El Etreby, K.-D. Richter and P. Günzel*

Sexual hormones and prolactin cells in rat, dog, monkey and man 65

### Chapter 2: Assay methods

*I.A. Forsyth and L. Parke*

The bioassay of human prolactin 71

*F.C. Greenwood, C.G. Lino and G.D. Bryant*

Current radioimmunoassays for human prolactin: a critical appraisal 82

*Discussion* 90

*Short Communications*

*P. Mary Cotes*

Research Standard A for human prolactin (in ampoules coded 71/222) 97

*H.G. Kwa, E. Engelsman and A.A. van der Gugten*

Advantages of using rats as antiserum producers to human prolactin 102

**Chapter 3: Control of secretion in animals and comparative physiology of significance to the clinician**

*J. Meites*

Control of prolactin secretion in animals 105

*C.S. Nicoll*

'Spinoff' from comparative studies on prolactin physiology of significance to the clinical endocrinologist 119

*Discussion* 137

*Short Communications*

*B. Kerdelhué, S. Catin and M. Jutisz*

New data concerning the plasma levels of prolactin and gonadotropins throughout the estrous cycle in the rat 149

*D.F. Horrobin, M.S. Manku, B. Nassar and D. Evered*

Prolactin and fluid and electrolyte balance 152

*W. Wuttke and K.D. Döhler*

Partial and total blockade of pituitary prolactin release in rats: effects on pregnancy and serum progesterone 156

*K.-J. Gräf, F. Neumann, Y. Nishino, M. Mehring and S.H. Hasan*

The effect of different progestogens on prolactin secretion in rats 160

*D. Gourdj, A. Morin and A. Tixier-Vidal*

Study on the control of prolactin secretion by two continuous lines of rat pituitary prolactin cells 163

**Chapter 4: Physiopathology and control of secretion in humans**

*C. Robyn, P. Delvoye, J. Nokin, M. Vekemans, M. Badawi, F.R. Perez-Lopez and M. L'Hermite*

Prolactin and human reproduction 167

*L.S. Jacobs and W.H. Daughaday*

Pathophysiology and control of prolactin secretion in patients with pituitary and hypothalamic disease 189

*Discussion* 206

*Short Communications**H. Brauman*

Stimulation of prolactin secretion in various clinical situations 224

*K. von Werder, O.A. Müller, P.C. Scriba, R. Fahlbusch, U. Hachmeister, R. Goebel, M. L'Hermite and C. Robyn*

Function and ultrastructure of the pituitary in Forbes-Albright syndrome 226

*A.S. McNeilly, G.E. Evans and T. Chard*

Observations on prolactin levels during the menstrual cycle 231

**Chapter 5: Prolactin and mammary carcinogenesis***J. Furth*

The role of prolactin in mammary carcinogenesis 233

*J.R. Hobbs, H. Salih, H. Flax and W. Brander*

Prolactin dependence among human breast cancers 249

*Discussion* 259*Short Communications**R.G. Wilson, A.P.M. Forrest, A.R. Boyns and K. Griffiths*

Phenothiazines and breast cancer 266

*K.D. Schulz, P.-J. Czygan, E. del Pozo and H.G. Friesen*Varying response of human metastasizing breast cancer to the treatment with 2-Br- $\alpha$ -ergocryptine (CB-154). Case report 268**Chapter 6: Pharmacological factors affecting prolactin secretion***A.G. Frantz, D.V. Habif, G.A. Hyman, H.K. Suh, J.F. Sassin, E.A. Zimmerman, G.L. Noel and D.L. Kleinberg*

Physiological and pharmacological factors affecting prolactin secretion, including its suppression by L-DOPA in the treatment of breast cancer 273

*E. del Pozo and E. Flückiger*

Prolactin inhibition: experimental and clinical studies 291

*Discussion* 302*Short Communications**L. Schellekens and R. Rolland*

A new approach to the inhibition of puerperal lactation 308

X Contents

*Hiroshi Nagasawa, Reiko Yanai and E. Flückiger*

Counteraction by 2-Br- $\alpha$ -ergocryptine of pituitary prolactin release promoted by dibutyl-adenosine-3',5'-monophosphate in rats 313

*P. Pujol-Amat, O. Gamissans, J. Calaf, E. Benito, F.R. Perez-Lopez, M. L'Hermite and C. Robyn*

Influence of L-DOPA on serum prolactin, human chorionic somatomammotrophin (HCS) and human chorionic gonadotrophin (HCG) during the last trimester of pregnancy 316

General Discussion 321
