

## TABLE OF CONTENTS

Participants	vii
NHLBI Staff	xi
Acknowledgments	xiii
INTRODUCTION: A.M. Gotto, Jr., J. Alan Herd, and S.M. Weiss	1
PART I BLOOD PRESSURE	
The Indirect Measurement of Blood Pressure L.A. Geddes	5
Noninvasive Measurement of Blood Pressure in Biobehavioral Research P.A. Obrist and J.S. Hutcheson	21
Transducers and Telemetry for Cardiovascular Function D. Franklin	29
Blood Pressure Monitoring in Laboratory Animals During Behavioral Experiments D.E. Anderson, W.D. Kearns and J.H. Haley	41
Validation of the Vita-Stat Automated Noninvasive Ambulatory Blood Pressure Recording Device T.M. Dembroski and J.M. MacDougall	55
Noninvasive Ambulatory Blood Pressure Monitoring M.A. Chesney	79
High Frequency Pulsed Doppler Measurements of Blood Flow and Myocardial Dimensions in Conscious Animals C.J. Hartley, R.M. Lewis, T. Ishida, J.E. Chelly and M.L. Entman	95
PART II. ELECTRICAL ACTIVITY	
Digital Systems and Processing as Aides to ECG Analysis G.K. Cano	107
Electrocardiographic Responses to Behavioral Stimuli R. A. deSilva	121
Neurogenic Influences Upon the Heart N. Schneiderman, P.M. McCabe and K.A. Hausman	139
The Electromyogram: A Potentially Attractive Tool for the Noninvasive Assessment of Muscle Function J.S. Petrofsky and C.A. Phillips	151

Applied Technology in Sleep Research M. Hirshkowitz and I. Karacan	165
Psychosocial Stress and Cardiac Vulnerability: Brain Mechanisms J.E. Skinner, C.M. Pratt, and M.L. Entman	169
<b>PART III. BLOOD FLOW</b>	
Peripheral Vascular Blood Flow J.M. Reid	187
Regional Blood Flow in Laboratory Animals F.A. Spelman	195
Measurement of Local Blood Flow During Behavioral Experiments: Principles and Practice R.B. Williams, Jr.	207
Cardiac Output of Humans in Biobehavioral Research P. A. Obrist, A. Sherwood and A.W. Langer	219
Impedance Cardiography and Plethysmography J.C. Buell	227
Biomedical Applications of Positron Emission Tomography S.R. Bergman, M.M. Ter-Pogossian and B.E. Sobel	239
<b>PART IV. ANALYTICAL TECHNIQUES</b>	
Myocardial Metabolic Responses to Stress and Ischemia: A Consideration of Methodologic Approaches M.L. Entman, L.H. Michael and J.E. Skinner	249
Techniques for Collecting Blood Samples in the Field and in the Laboratory J.E. Dimsdale	263
Nuclear Magnetic Resonance Imaging: Brief Clinical Overview P.L. Davis, L. Kaufmann, L.E. Crooks and A.R. Margulis	277
Noninvasive Measurements of Cardiac Metabolism R.S. Eliot	285
<b>PART V. REPORTS</b>	
Report of Task Group on Restrained Animal Considerations D. Anderson and H. Hartley C. Hartley, J. Reid, N. Schneiderman, J. Skinner, J. Spelman, J. Turkkan	291

<b>Report of Task Group on Experimentation in Unrestrained Animals</b>	<b>297</b>
D. Franklin and A. Harris R. Friedman, J. Henry, A. Johnson, R. Rader, O. Smith	
<b>Report of Human Ambulatory Monitoring Task Group</b>	<b>305</b>
M.A. Chesney and T. Pickering J. Buell, G. Cano, T. Dembroski, R. deSilva, J. Dimsdale, G. Harshfield, N. Hymowitz, R. Mark, P. Obrist	
<b>Report of Task Group on Human Studies Under Laboratory Conditions</b>	<b>309</b>
R. Williams and M. Entman R. Eliot, L. Geddes, M. Hirshkowitz, L. Kaufman, N. Miller, J. Petrofsky, O. Schmitt, G. Schwartz, M. TerPogossian	
<b>Bioengineering Perspective on Instrumentation for Biobehavioral Research</b>	<b>313</b>
D. Franklin	
<b>Perspective of Cardiovascular Physiology on Instrumentation for Biobehavioral Research</b>	<b>315</b>
J. Herd	
<b>Synthesis and Some Future Needs</b>	<b>321</b>
N. E. Miller
